b6
b7C

UNCLASSIFIED
NON-RECORD

Next Tuesday we are hosting the Tech Op Working Group with the latest [Redacted] Reallocation being the main topic. [Redacted] from NTIA is also coming. At my last meeting [Redacted] asked if we could show him our latest [Redacted] related toys. Some of the agencies had also asked the same. There will be about 30 people attending & I would like to give them a 30 minute show & tell right before lunch.

b6
b7C
b7E

How about:

b7E

Each of these should be about 5 minutes

I am sorry but unfortunately these classes have been postponed. We will be rescheduling them sometime in the third quarter. [redacted] and they have asked that the training be rescheduled until these issues are worked out.

b5

If your guys are waiting to use the equipment we might be able to get them some specialized training or VSU people might even be willing to travel down to [redacted] to help out. Both are options. I will check with VSU and keep you posted.

Thanks, [redacted]

Subject: License Plate Reader Class

Classification: UNCLASSIFIED
=====

Good Morning,

The [redacted] Training Program has scheduled a Three day class entitled License Plate Reader for 10/12/2011 through 10/14/2011. This is a new class and it will introduce [redacted] to new equipment that is being shipped to the field now. I sent out an e-mail last month notifying everyone that this class was available on the Virtual Academy and requested that all interested [redacted] sign up. We currently have Five people.

b7E

OJTs will be considered for this training.

If you would like to attend, please e-mail me to let me know. I would like to avoid cancelling this class.

Travel days are Tuesday October 11 and Saturday October 15.

Thank You [redacted]

Subject: Southwest Border Initiative Training Next Week 1/25 to 1/27
Importance: High

b6
b7C

UNCLASSIFIED
NON-RECORD

Southwest Border
Agenda final ...

All,

Coming up next week is the OTD SWB training initiative in conjunction with CID. Attached is Final Agenda as reviewed and approved by TOCU who is leading the charge in providing support and addressing this high priority project.

The Draft Agenda which was circulated at the SWB conference in Dallas has been fine-tuned based on investigative priorities, targeted technologies and availability.

[redacted] has been working back channels to get rooms reserved and touching base with each of the identified Units and SME's.

b6
b7C

Please check the agenda and let me know if there are any last minute issues or questions.

Specific follow-up: [redacted] - SSA [redacted] advised that radio communications was a topic of interest. UC [redacted] - is there a specific POC that can provide a briefing or has been identified for this initiative?

[redacted] SSA [redacted] advised that time will be split from the initial allocated [redacted] 2 hour allocation, and that TRU will get 1 hour to showcase its capabilities and provide an [redacted] demo. UC [redacted] can you confirm and advise who is the POC?

[redacted] A/UC [redacted] is there a specific POC for the walkthrough and briefings?
[redacted] - UC [redacted] - I have been advised that TICTU specific classes and demos will be held in the [redacted] lab - can you confirm?

b6
b7C
b7E

[redacted] - UC [redacted] has advised that there is a conflict with another class and that he will not be able to present. Do you have someone else that can present about 1/2 hour on the Kiosk, and about 1/2 an hour on forensic services that can be leveraged by the field (this may also be a time to have [redacted] present)?

If I have left anyone off of the TO of CC lines - please forward.

I have been told by UC [redacted] and SSA [redacted] that this is a significant priority for the division and that we will not fail in providing this training. As such, I wish to extend a sincere appreciation in advance for making yourself available and supporting this initiative.

b6
b7C
b7E

Hi [redacted]

b6
b7C
b7E

I'm finishing up the software now [redacted]

[redacted] The software that is being finished up now (and ready for release) is version 2.0.4. This software has the following enhancements (numerous bug fixes are also included):

[Large redacted area]

b6
b7C
b7E

We've also added another Engineer to LPR support so hopefully we'll have more luck working through our backlog.

I'll be in touch with you next week to coordinate installation of the new server software.

Take care,
[redacted]

[redacted] Below is my initial response to [redacted] I took your response and tweaked it a bit. See the red section below. Can you provide me some data before I send this to [redacted] Thanks. [redacted]

b6

b7C

[redacted]

b6

b7C

Cost data is somewhat complicated because the LPR system can be fielded in different [redacted] Also, with current FBI technology [redacted] cameras. The costs below do not include:

b7E

- A. The Operational Technology Division's engineering investment to take a [redacted]
- B. [redacted]
- C. [redacted]
- D. [redacted]

b7E

Basic Cost Data is as follows:

- A. [redacted]
- B. [redacted]
- C. [redacted]
- D. [redacted]

b7E

[Redacted]

E:

[Redacted]

b7E

F:

[Redacted]

b7E

With respect to success stories, the field offices actually using the equipment have better knowledge on how successful the equipment has been. Many of the offices that have received the LPR equipment have come back asking for more systems, so we assume they are working well for the offices. As with any new technology, there is a learning curve, so we expect more success stories after the end user has had more time to learn the equipment. In brief, our LPR roll out is as shown below:

[Redacted]

b7E

We also have requests from the following offices. These will be met when equipment becomes available:

b6
b7C
b7E

Hi [redacted]

b6
b7C

I can tell you that [redacted] ELSAGs installed by the end of the year and will have all of the major roads into/out of [redacted] covered. It seems like they're using the cameras primarily for law [redacted] I make this judgment based on the nature of the [redacted] that they load: [redacted]

b7E

The [redacted] ELSAGs deployed covering [redacted]. which provide natural choke points. Again, the bulk of the analysis is for [redacted]

In fact, the [redacted] LPR surveillance is provided by the FBI. LPR systems are designed to ingest the **NCIC (National Crime Information Center) Vehicle Extract** which lists felony warrants, stolen vehicles, etc.

b7D
b7E

I've also been told that the funding for [redacted] cameras have been coming through [redacted] If you want, I can try to get contact info for you.

Hope everything is going well... still waiting for MPU to finish up your LPR [redacted] (hopefully they'll be done within the next couple of weeks).

Take care,

License Plate Reader (LPR) Users,

We are currently in the process of collecting the usage metrics for LPR's deployed in the field. We would like for you to provide us with the following information:

- Have you completed your testing of the LPR system?
- Have you ever deployed this technology?
- Have you had any issues operating the system?

FYI... There have been some substantial upgrades made to the system to address operational issues. Any system that was delivered over a year ago should be sent back to the VSU for upgrades and bug fixes. Also, check out the VSU LPR website for additional information [redacted]

Ok, cool, thanks [redacted]. Hey, I have another question. I was meeting with the CDC yesterday doing the MOU with [redacted] and she asked if we had thought about the SOPs for this thing. I hadn't really. One thing she asked me was who will "maintain" the system or fix it when something goes wrong (I should say "if something goes wrong right?) Would that be your group [redacted] I would think if it was a computer problem the IT folks at [redacted] could take a look at it, but if it something more than that, I wasn't sure who that would be.

b6
b7C
b7D
b7E

Classification: UNCLASSIFIED
=====

Guys,

I received an e-mail from [redacted] Chief Information Officer, [redacted] regarding meeting at [redacted] to work out some of the issues both [redacted] presented. It seems [redacted] new LPR hardware was a bit under spec'ed and they will most likely have to replace it in the new few months, however, he still feels we should meet. I spoke with [redacted] secretary and here are the possible dates/times:

b6
b7C
b7D
b7E

- June 9th: 11:30am
- June 10th: 12:00pm
- June 16th: 11:30am

FBI-166-ALPRS

His secretary advised that his schedule fills up fast and we would most likely only have an hour of his time, so it's very important that we all arrive on time. Please let me know ASAP if any of those dates work as I need to let his secretary know. I will also send out a Blackberry. Thanks.

Hi [Redacted]

b6
b7C

Is there any way I could get a look at [Redacted] ELSAG database? Before running up there with software to test, I'd like to look at their ELSAG database schema to make sure it is aligned with my understanding of what the database should look like. I'd also like to check their server to make sure it has the required support services [Redacted] and I wanted to check their CPU load on the server to make sure there was additional margin for running our software.

b7D
b7E

If everything lines up as anticipated, the software should be ready approximately 1 week after I have confirmed the aforementioned items. (I want to run a stress test down here to make sure I don't screw up there system).

Take care,

[Redacted]

Classification: UNCLASSIFIED

=====

Good Morning [redacted]

b6
b7C

Thank you for the NCIC LPR Data. We received it last night as indicated. We noticed that the information came in line text. Do you have a document on something else that will make it easy for use to decipher the text? We are able to visually make out some of the information, however there is probably something else that will make it easier for us.

Thanks again!

Regards,

[redacted]

[Redacted]

I would like to suggest that we have our meeting here at the Engineering and Research Facility, [Redacted] b6
[Redacted] I recommend this because we already have equipment installed here that b7C
we can demonstrate. b7E

Also, if you would like we can assist with one of your [Redacted]. No problem either way, just let us know what b7E
you would like.

If you have any questions, please feel free to contact us.

Regards,

[Redacted]

Great!

FBI-212-ALPRS

Yes Sir, we will help you in any way that we can. We want this technology to be a success throughout Bureau. When you get some time, [redacted] and I would like to invite you over so that we can talk about how the FBI Police and our agents are using this technology in the field. We will show you the custom application that we have developed and show you some of our [redacted]

[redacted]

LPR systems are relatively complicated, and it is not just a matter of shipping a camera. [redacted] will be back tomorrow and I will follow up with him on the status of your system. I know they are getting some [redacted] sure if that is an issue or something else.

Hi [redacted]

Could you please sent the LPR to me? I think there was some confusion, I just noticed you were waiting to hear from me and I have been waiting for the equipment.

Please ship so I can install.
