I am sorry but unfortunately these classes have been postponed. We will be rescheduling them sometime in the third quarter. Seems that the DOJ has taken issue with the manner in which the systems are being deployed and they have asked that the training be rescheduled until these issues are worked out.

If your guys are waiting to use the equipment we might be able to get them some specialized training or VSU people might even be willing to travel down to [Redacted] to help out. Both are options. I will check with VSU and keep you posted.

b6
b7C

Classification: UNCLASSIFIED
=====

[Redacted] - Summary of meeting with OGC is below. Also in blue are some definitions and a little analysis I did on PII back in November when we were looking at doing a Privacy Threat Assessment (PTA).

b6
b7C

Privacy and Civil Liberties Unit (PCLU), Video Surveillance Unit (VSU) [Redacted] met 25 Jan to discuss issues surrounding the deployment and use of License Plate Reader (LPR) systems by field divisions. Topics of

b5
b7E

[Redacted]

[Redacted]

b5
b7E

[Redacted]

b5
b7E

Things to consider when completing the Privacy Threat Assessment (PTA).

The Privacy Threat Assessment (PTA) determines whether a full blown Privacy Impact Assessment (PIA) is required; OGC's PCLU is the final authority on whether it's required. [Redacted] (and PCLU) are concerned the LPR systems contain/store/(and transmit?) Personally Identifiable Information (PII); however, the Privacy Act is concerned with "records maintained on individuals." Four (4) definitions are important: Personally Identifiable Information, Sensitive Personally Identifiable Information, Records, and System of Records.

b6
b7C

Personally Identifiable Information is defined by FBI Corporate Policy 0179D as "Personally Identifiable Information (PII): Information that can be used to distinguish or trace an individual's identity, such as their name, social security number, biometric records, etc. alone or when combined with other personal or identifying information that is linked or linkable to a specific individual, such as date and place of birth, mother's maiden name, etc. (OMB Memo M-07-16)"

Sensitive Personally Identifiable Information is defined by FBI Corporate Policy 0179D as "Personally identifiable information including name and one or more identifiers (such as SSN, DOB, or passport number) which, if lost, compromised, or disclosed without authorization, could result in substantial harm, embarrassment, inconvenience, or unfairness to an individual."

[Redacted] - Summary of meeting with OGC is below. Also in blue are some definitions and a little analysis I did on PII back in November when we were looking at doing a Privacy Threat Assessment (PTA).

b6
b7C

Privacy and Civil Liberties Unit (PCLU), Video Surveillance Unit (VSU) [Redacted] met 25 Jan to discuss issues surrounding the deployment and use of License Plate Reader (LPR) systems by field divisions. Topics of

b5
b7E

[Redacted]

[Redacted]

b5
b7E

[Redacted]

b5
b7E

Things to consider when completing the Privacy Threat Assessment (PTA).

The Privacy Threat Assessment (PTA) determines whether a full blown Privacy Impact Assessment (PIA) is required; OGC's PCLU is the final authority on whether it's required. [Redacted] (and PCLU) are concerned the LPR systems contain/store/(and transmit?) Personally Identifiable Information (PII); however, the Privacy Act is concerned with "records maintained on individuals." Four (4) definitions are important: Personally Identifiable Information, Sensitive Personally Identifiable Information, Records, and System of Records.

b6
b7C

Personally Identifiable Information is defined by FBI Corporate Policy 0179D as "Personally Identifiable Information (PII): Information that can be used to distinguish or trace an individual's identity, such as their name, social security number, biometric records, etc. alone or when combined with other personal or identifying information that is linked or linkable to a specific individual, such as date and place of birth, mother's maiden name, etc. (OMB Memo M-07-16)"

Sensitive Personally Identifiable Information is defined by FBI Corporate Policy 0179D as "Personally identifiable information including name and one or more identifiers (such as SSN, DOB, or passport number) which, if lost, compromised, or disclosed without authorization, could result in substantial harm, embarrassment, inconvenience, or unfairness to an individual."

Record is defined by the Privacy Act as "...any item, collection, or grouping of information about an individual that is maintained by an agency, including, but not limited to, his education, financial transactions, medical history, and criminal or employment history and contains his name, or the identifying number, symbol, or other identifying particular assigned, such as a finger or voice print or a photograph;..."

System of Records is defined by the Privacy Act as "...a group of any records under the control of any agency from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual;..."

[Redacted]

b5

[Redacted]

Note: Privacy Act only

requires Federal Register notice for a system of records.

Exemptions exist for: 1) system of records "maintained by an agency or component thereof which performs as its principal function any activity pertaining to the enforcement of criminal laws...and which consists of... information compiled for the purpose of a criminal investigation, including reports of informants and investigators, and associated with an identifying individual..."

All,

I spoke with [Redacted] and it looks like tomorrow is the best day to meet. Let's meet at 2pm at VSU's place. For what we would like to accomplish, the only people in attendance should be the folks on this e-mail chain. We want to discuss field strategy, so let's keep this to just those in the chain. Please let me know this is good for everyone. Thanks.

Ok, so let's try to come up with an agreeable date/time for everyone. [Redacted] have firearms next Fri (2/3) so that's not good for us. Why doesn't everyone e-mail me days that won't work for them and I will come up with some dates/times that do work. I will send out an e-mail to everyone at that point.

As for a meeting place, makes no difference to me. [Redacted] VSU....if anyone has a preference or if it makes a difference regarding a meeting date, let me know.
