Guidelines for Confirming NCIC LPR Hits

Since 2004, the FBI CJIS Division has been providing vehicle data from the National Crime Information Center (NCIC) system to law enforcement agencies using License Plate Reader (LPR) technology.   The NCIC data includes vehicle information from the Vehicle, License Plate,   Wanted Person, Protection Order, Missing Person, Gang, Known or Appropriately Suspected Terrorist, Supervised Release, Immigration Violator File and the National Sexual Offender Registry.

b7E

The NCIC Hit confirmation policy can be found in its entirety in the *NCIC 2000 Operating Manual*, Introduction, Section 3.5, Hit Confirmation Procedures.
