Subject: RE: Consolidated MOA 11 Aug (Draft Pre- Decisional)

Ladies and Gents,

Here is the consolidated version, in clean view. It was getting pretty ugly with all the comments and changes - so I thought I'd start fresh. Also, based on a recommendation, the format has changed a little to show DHS, DOD and DHS/DOD as the three main categories in the Responsibilities section. I will work on the I Plan later.

Cheers,
Mike

Jason

DoD and NSA are good with a pre-meeting call. Wed afternoon would give the most time for the DIB companies to send in their consent texts. If that does not work, I am available Tues afternoon. However, I am not sure (b) (6) is available either day and he should be on the call.

John

Jason

A call before the Thursday meeting would be helpful if it can be arranged. Given that the DIB employee consent language is coming in slowly (I have seen only a couple), it would make more sense to have the pre-meeting call later in the week, like Wednesday. (FYI: (b) (6) is TDY today and he might be reachable. I am cc'ing him to loop him in on his availability and preferences.) I will talk to Bob about when he thinks the time is right for a pre-meeting call.

Chris,
(b) (5)

The IPC will be a good opportunity to review that decision and the excellent questions you've outlined. I suggest the IPC be postponed to the week of the 1st (perhaps the 4th) to allow for this week's interagency discussions to reach their conclusions in advance of the IPC.

Best,
(b) (6)

Cc: (b) (6)
Subject: IPC next week.

The IPC next week is meant to flesh out any issues relating to the DIB pilot before we have the next Deputies on this topic. Some issues include:

What is the status of the ISP negotiations and the company discussions?
(b) (5)

Assuming one or more ISPs request 2511 letters, are there any substantive hurdles to issuing? Procedural?

Are the companies being offered any incentives (or disincentives) to participate?

Will the program cover all parts of the company network -- including say day care centers (as mentioned as a question in a DC) and what are the policy implications of this?

What is the comms plan for this when implemented?

What is the likely timetable?

Does the pilot end after 90 days (there was some equivocation on this depending who answered at the DC)?

Feel free to suggest others but I want to make sure our ducks are in a row.

(b)(6)-P.L. 86-36

This is the info I mentioned in the SVTC on the language compromise. You notice Phil and Jim ok the language to move out on. Please let me know if there is anything more you need from me.

Cheers,
 Mike

Phil,

Sounds good, let's do it! I have already talked to Bill Lynn about this and am confident that this language is acceptable to him. Will wait to hear the "go" sign from you before considering it final.

<break><break>

Will email later today about joint statement, talking points for press roundtable on MOA.

All best

Hi Nicole,

I reached out to **(b) (6)** (she works on DIB for **(b)(6)-P.L. 86-**), David Delaney and Tom McDermott...the only one who did not respond (others had no details of a meeting today or a call) is Tom McDermott...David thought he might have info.

Finally I just asked **(b)(6)-P.L. 86-36** response "This is a DoD only meeting".

(b) (6), (b) (7)(C)

Unless you hear differently, all logistics will be the same as last time (see PS of this message). I've copied (b) (6) (b) (6) keeper), for confirmation of, or any deviations from, this plan.

May I ask who all will be joining us?

Please note that I'm inviting David *G.* Delaney also.

Cheers/ (b) (6)

PS- Here's excerpt from (b) (6) message for our last meeting:

 (b) (6) office is located between the Mall and River Entrances of the Pentagon. We are in room 3E788. If you are arriving in a government car you can be dropped off at either entrance. If you do not have a Pentagon badge, you will need an escort to get in the building. When you arrive at the building, and if you need an escort, please call and someone will come and escort you to the office. If you are arriving via Metro and do not have a Pentagon badge, you will have to go through the security line outside the building. To get through security, you will need two forms of identification (an ID with a photo and a credit card--or something else with your name on it). After clearing security outside the Metro Entrance if you do not have a badge, you will need an escort from the Visitor's Waiting Area which is located just inside the Pentagon (to the left before the turnstiles). If you need an escort, please call the office while you are in line outside the building and someone from the office will start walking to the Visitor's Waiting Area (about a 5 minute walk from the office).

Please arrive about 15-20 minutes early to clear security and walk to the office from the Metro Entrance. The Mall and River Entrances are only a minute from the office but you will still need two forms of identification.

Let me know how you plan to arrive and if you will need an escort.

Sent: Wed Jun 30 17:51:14 2010
Subject: FW: New DIB Partner Pilot

~~UNCLASSIFIED//FOR OFFICIAL USE ONLY~~

Dear DIB Partners,

The Department of Defense (DoD) relies on the networks and systems of its Defense Industrial Base (DIB) for many key functions, including the design and support of mission critical networks and capabilities. Indeed, the DIB represents a growing repository of critical government information and intellectual property on unclassified networks. As DoD's capabilities are inherently dependent on the security and integrity of information in the

DIB, the Deputy Secretary of Defense has emphasized the need for DoD to develop additional initiatives to rapidly increase the level of cyber security protection available for the DIB.

Deputy Secretary Lynn has directed that DoD begin the effort by developing a detailed plan for a pilot program to provide certain elements of DoD's dynamic network defense capability in conjunction with commercial internet, network, or other communications services available for use by the DIB.

This rapid, 60-day planning effort will address the legal and operational issues associated with deployment and testing of such a capability, and will involve discussions with commercial service providers and DIB partners. DIB companies participating in the DIB Cyber Security/Information Assurance (CS/IA) Program as of June 1, 2010 will be eligible to participate.

As a member of the DIB CS/IA Program, you are invited to attend a briefing and discussion regarding this effort. The meeting agenda will include an overview of the project, including opportunities to participate in the planning and shaping of the constructs to be used for the pilot program.

For example, the pilot phase of the effort is envisioned as a short-term cooperative activity involving DoD organizations, DIB companies, and commercial service providers-and will likely involve crafting an appropriate addendum to your DIB CS/IA program Framework Agreement, and perhaps also your service agreements with your commercial service providers, to allow for the operational testing of these additional capabilities.

After the meeting, you will have the opportunity to participate or decline to participate in more of these initial planning efforts. If you do intend to participate, we will ask for a primary POC for follow-on engagements. In order to meet the Deputy Secretary's timeline, the team is required to complete the plan by the first week of August, so participation may be best suited for those with some flexibility and availability during July.

Two alternative sessions are scheduled for 9:00AM-12:00PM on July 7th and July 9th. We request that you or other senior representatives from your CISO or CIO offices, if you are not available, as well as a senior representative from your General Counsel's office, attend one of these sessions. Please let us know as soon as possible which of these dates is more convenient for you and whether these individuals hold security clearances at the TS level. The sessions will be held at a secure facility in Fort Meade, MD.

I will provide some additional information during the upcoming Special CIO/CISO teleconference for the DIBCS/IA program on Thursday, July 1, at 3:00pm. To identify which day is most convenient and register for the meeting, please contact (b) (6) at (b) (6) or (b) (6).

~~(U)~~ We look forward to continuing our partnership with you to increase the cyber security of our nation.

Sincerely,

(b) (6)

Subject: RE: PA Chapeau
Importance: High

Bruce,

Sorry for the delay. Overall this Chapeau looks to be in good shape. I have placed track changes in the paragraph that talks about our respective authorities and how we are working together. This suggested track changes -- matches the language that DASD Butler sent earlier this AM to Dep U/S Reitingger to help resolve the language on authorities as it relates to the DIB Pilot Program. We think that we should try and make the language consistent.

In our monthly meeting with the DepSecDef -- he raised the specific roll-out strategy for the Enhanced Coordination Initiative. We explained that it was being worked. To that end--It's my understanding that the group has agreed that this should be a low-key roll out, maybe a few quotes from each of our secretaries in a press release, then response to query only ---Is this correct? If so, has DHS prepared updated Qs and As on this initiative? How can we further assist? Sorry, if this was already worked out with (b) (6)-- I just want to make sure that we are not missing anything. Standing by...

All the best,

(b) (6)

 Subject: Tuesday SVTC

Bob,

Sandy had asked that I stand in for her for the next two Tuesdays on the SVTC. I believe she said you forward her the agenda and she provides quick TP's for Chris and Fran. Did I capture that right? If yes, could you please cc me on the agenda so I can support her in her absence?

It would be valuable to include a quick ESF update on the agenda - to sync with DHS on the prepping of their secretary, etc. We all took a lesson learned last time to try to synchronize the Deputies' goals and objectives in advance...

Thanks, I hope you are having a terrific weekend with your family in San Antonio!

(b) (6)

Pls see attached read ahead materials for the ICI IPC tomorrow. Attached are:

- 1) DoJ-approved Eight Key elements for Notice and Consent Banners (2 Options) (last attachment)
- 2) DIB Pilot Cybersecurity Plan -- Strategic Communications Plan
- 3) Current DIB Response to Queries
- 4) DIB Pilot Talking Points
- 5) Engagement Calendar DEC 10 and JAN 11

(all documents are draft/pre-decisional)

Still under development are Detailed Q&As and a releasable paragraph outlining what the what the DIB Exploratory Initiative is and does.

Hi Bob,

I wanted to follow up with you from our discussion on Monday regarding a few items in preparation for the ICI-IPC tomorrow.

What was the outcome of the alternative banner discussion with DOJ on Monday?

And, can you please send the chapeau talking points and communications/outreach strategy elements by the end of the day today?

Many thanks,

Subject: request for assistance: cyber info-sharing mtg

All: Dep U/S Dawn Scalici chair a meeting to develop an action plan for a topic Bruce McConnell nominated at an Info Sharing Governance Board meeting earlier this year. The topic is increasing cybersecurity FOUO tearlines for the private sector CIKR owners/operators. I believe this topic will need to consider burgeoning requirements based on the transfer of the DIB pilot to DHS.

Can you please identify an appropriate person from NPPD to meet with Ms. Scalici and her meeting invitees to help move this initiative forward?

Thank you.

Subject: Schedule for DIB 3-way meetings next week

Block your calendars: All day next Thursday 7/22 (two sessions, 9-12, and 1-4); and Friday morning 7/23 (9-12).

This is for the 3-way meetings – USG, ISP, and DIB. More specifically, each meeting would be a single ISP, and all participating DIBs that are serviced by that ISP.

I'll send a note on high-side with more details, but this is all happening near-real-time here. I just got off telecon in which this schedule was proposed.

 Cc: **(b)(6)-P.L. 86-36**; Schleien, Steven, SES, OSD-POLICY
 Subject: RE: SecDef Update on DoD-DHS MOA

(b) (6)

Here are some numbers on the DHS side. The MOA calls for a JCE and the org chart which we used to go along with it called for 10 DHS folks and 10 DOD. On DHS side, we have made 5 selections over the past two weeks against those 10. There were no approved FTP (billets) in FY11 for the JCE - but DHS authorized hiring actions against the FY12 PB for the JCE. IOC was 1 Dec - Phil and I both on station; offices occupied; CSG (1 person) and CSE (1 person) forward deployed from NSA and USCC respectively to DHS/NCCIC in Arlington. Phil can provide DOD info on JCE and other questions.

 Subject: RE: SecDef Update on DoD-DHS MOA

(b) (6)

I have very specific guidance. If I work on the update to SD - it needs to go thru S2 and S1. That's my dilemma. The email string on the tasker was how is the MOA going from a DOD perspective - at least that is the way it is being read. Therefore, if DOD wants to provide its opinion to SD - and I'm part of the development - it will need to go thru S2 and S1. That could impair DOD perspectives. Hope you understand what I'm saying and I can talk on the phone if you like.

Cheers,
Mike

(b) (6) Butler, Robert J SES OSD POLICY; Schleien, Steven, SES, OSD-POLICY
Subject: FW: SecDef Update on DoD-DHS MOA
Importance: High

RADM Brown/Phil;

SecDef has asked for an update on the progress in implementing the DoD-DHS Cyber MOA, including but not limited to the JCE.

Bob wants to discuss it as part of the 1130 SVTC tomorrow. (b) (6)
(b) (6) But I will be doing the RAH package that goes to the SECDEF.

Dr. Miller has asked for draft memo & briefing to present to DSD when he's back early next week.

I will put together the briefing based on input from you. Some of the briefing you gave at the meeting last week can also inform our briefing. Topics (slides) I believe we should address are:

- Slide 1 - Background/Summary of MOA
- Slide 2 - Intent of MOA
 - o Increase interdepartmental collaboration in cybersecurity planning
 - o Mutual support for cybersecurity capabilities development
 - o Synchronization of operational cybersecurity mission activities
- Slide 3 - Scope
 - o "DoD and DHS agree to collaborate to improve the synchronization and mutual support of their respective efforts in support of U.S. cybersecurity"
 - o Improve the efficiency and effectiveness of requirements formulation and requests for products, services, technical assistance, coordination and performance assessment for cybersecurity missions across DoD and DHS
- Slide 4/7 - Requirements (areas I will need info to fill out the slides):
 - o Slide 4/5 - DHS
 - § Assign DHS Director, Cybersecurity Coordination (also serves as DHS rep to USCYBERCOM)
 - § Receive DoD requests for cybersecurity support (have you received any, update?)

(b) (5)

§ JCE performs the functions of Joint operational planning, coordination, synchronization, requirement translation and other DHS mission support (Assessment and examples of each of these, as applicable?)

(b) (5)

- § Assign DHS personnel to work at the NTOC (Both required and assigned DHS numbers?)
- § Assign DHS reps from the Office of the GC, Privacy Office, and office for Civil Rights and Civil Liberties (Both required and assigned DHS numbers and specialties)
- § Director, Cybersecurity Coordination

- Provide requests for cybersecurity planning and technology (Any? If so then a summary)
- Convey and Coord within DHS any NSA or CYBERCOM requests for support (Any? If so then a summary)
- Promote and facilitate strong comms between DHS and DoD senior leadership (examples?)
- o Slide 6/7 - DoD
 - § DIRNSA and COMUSCYBERCOM collaborate and provide cybersecurity support to DHS through JCE (Examples?)
 - § NSA assign Senior Executive as NSA lead to the JCE (overview of Phil's roles and responsibilities?)
 - § Receive and Coord DHS requests for cybersecurity support (Any?, If so, then a summary)
 - § Collocate a CSG at DHS NCCIC (Complete? Personnel Assigned? Summary of actions)
 - § Assign personnel to the JCE (Both required and assigned NSA numbers?)
 - § USCYBERCOM receive DHS request for cybersecurity support (Any? If so then a summary)
 - § USCYBERCOM collocate and assign a Cyber Support Element at the DHS NCCIC (Both required and assigned CYBERCOM numbers)
- Slide 8 - Joint DoD-DHS
- o Develop an agenda of appropriate supporting actions (List, status?)
- Slide 9 - Future workplan
- o POAM?

That's the info and requirements that I pulled out of the MOA. We don't have to be that extensive, but I believe the SD will want to know if the JCE is meeting his concept for collaboration and coordination between the two Departments. I can integrate any other slides or partnership info you want to provide, just let me know. My suspense to Dr. Miller is Friday afternoon.

Pls provide what you can of the above info by COB Wednesday. I will use Thursday to draft the RAH memo and the briefing. Thanks for all your support in advance.

Subject: SecDef Update on DoD-DHS MOA

Team,

SecDef has asked for an update on progress in implementing the DoD-DHS Cyber MOA, including but not limited to the JCE.

Let's get a draft memo & briefing together to present to DSD when he's back early next week - (b) (6) would you schedule ask your front office to schedule? Then let's work SD and DSD schedule. Bob/Cyber Policy, pls take lead on RAHs, coordinate w/ CYBERCOM/NSA and DHS.

Memo/briefing to SecDef should report on staffing, accomplishments, PO&AM highlighting next steps, and a question of whether MOA and associated activities are adequate. A chart with a timeline of opt-in DIB pilot and potential next steps to protect critical infrastructure should be added -- can decide later whether main part or backup.

Many thanks

Jim

 Subject: Update

Mike,

You are probably on version 4 of the "common technical" approach. Hope it's getting close.

Late yesterday morning DSD signed the DIB pilot memo to NSA. The memo is fundamentally the same as what I had prepared before the mtg of the Deputies at the Fort. It only authorizes the planning phase, but more importantly it has several hooks in it that solidify a close working relationship between DHS and DoD/NSA.

We had an impromptu mtg with DSD Thurs afternoon to discuss the memo and late breaking objections from the VCJCS and it was clear that DSD had definitely warmed to the arrangement.

01176

Because of that I subsequently strengthen the wording yesterday just before he signed that directs a common approach with DHS and E3.

I'll fax you a copy on Monday to share with Phil. Our take here is this was a significant tipping point to the positive. Also think he had a good talk with DS Lute. Now we need to sustain it.

Take care,

Pentagon To Help Internet Providers Get Military Cyber Tools

By Gopal Ratnam, Bloomberg News

The U.S. Defense Department plans to start a pilot program offering the military's cyber security tools to Internet service providers for use in detecting and stopping attacks on their networks.

The Pentagon is drafting a proposal to provide the country's top Internet service providers with tools and techniques already available to a group of defense contractors for detecting and fixing cyber attacks, defense officials told lawmakers today.

The plan seeks to use Defense Department technology ³with tier-one Internet service providers and see if we can do what we do with defense contractors,² General Keith Alexander, head of the U.S. Cyber Command, told the House Armed Services Committee's panel on emerging threats and capabilities. The program may be expanded to more Internet providers if it proves successful, he said.

The Pentagon has assembled a group of 40 defense contractors that voluntarily share with the Defense Department information on attacks on their networks, malware and suspected data thefts, under a program called the Defense Industrial Base Information Sharing Environment. In exchange, the companies get help fixing weaknesses in their computer systems.

The same approach may be applied to Internet providers during a 90-day pilot program, James Miller, the principal deputy undersecretary of defense for policy, told lawmakers. He didn't specify any companies that may participate in the project.

The program is in a ³formative, pre-liftoff stage,² Miller said in an interview after his testimony. ³We are working very closely with the Department of Homeland Security on details of how to proceed.²

The Defense Department also is looking to expand the defense contractors¹ group to include more suppliers and is seeking \$113 million for the project over the next five years, Miller said in his prepared testimony.

Subject: Fw: What's In/What's Out in DoD-DHS Cyber Discussion/MOA

Mike/Phil: Could use your help here. Believe we could have up to four levels of activities working under the MOA:

1. Joint Activities under NSS Oversight: These are DoD or DHS cyber activities that are already under an NSS oversight mechanism. I think of NCIRP, E3 and opt in DIB pilot -- all of which are under IPC/DC oversight.
2. JCE Activities
3. Joint Task Force Activities: These activities have well-defined time periods like the six-month SCRM TF.
4. Enduring Security Framework Activities

Would like to get your thought on what makes sense to include criteria for inclusion/exclusion.

Thanks - Bob

Subject: RE: What's In/What's Out in DoD-DHS Cyber Discussion/MOA

Bob,

If E3 is in, I can certainly see opt-in DIB being in.

That said, still not clear on what it really means in practice -- if it means only that activities get reported in regular DoD-DHS meetings that include NSA that is fine. If it means some kind of required coordination process in order to get the work done, I am much less enthusiastic.

More broadly, I would like to avoid a multi-forum coordination process (MoA, CIG, sub-IPC, etc.) that adds a lot of administration burden for little/no/negative value.

Bob, would you make a specific proposal, and then I would like to open this discussion to Keith Alexander, and soon thereafter to DSD.

Best

Jim

Bob,
The MOA is very focused and, from my perspective, not appropriate for oversight of non JCE functions like the Task Force, DIB Pilot or ESF.

From my perspective, the level of SD/DSD governance of the DIB Pilot and ESF efforts has been satisfactory and productive and does not require adjustment. Have you found the current oversight mechanism unsatisfactory?

Best,

(b)(6)-P.L. 86-3

What Bob and (b) (6) have agreed to is that the MOA serves as an organizing construct or agreement for all the cybersecurity activities that are in coordination between DoD and DHS. Although not under the JCE for management, Bob and Phil agreed that all the other DoD/DHS coordination activities for cybersecurity fell broadly under the MOA. This broadened the scope of the MOA while maintaining oversight of the JCE activities. (The MOA serving as a formal agreement between departments to coordinate and collaborate on cybersecurity.) What they didn't want was an erroneous understanding that only the JCE activities were managed under the MOA. I defer to Bob for more detail.

Subject: RE: Working FINAL DRAFT -- Comms Plan for the DIB
Importance: High

All,
Sorry for the delay. Internal work took a little longer than expected.

Please see attached. This is DoD's integrated, coordinated Final Draft of the DIB
Exploratory Pilot Comms Plan.

DoD has done a complete review and integrated comments from all concerned based on written
inputs and polycons. We've also re-arranged and layered based on the discussion at the last
polycon. Content has not significantly changed.

(b) (5)

Thanks,
(b) (6)

Subject: RE: Working FINAL DRAFT -- Comms Plan for the DIB

All,

Given that (b) (6) is still working to incorporate final comments into the Comms Plan, I would like to propose that we meet via teleconference on Monday, February 7th at 9 am to discuss the draft. That will enable everyone to review the next version in detail and we can hopefully get to a near final draft at that time.

I want to ensure that we have representation from DOD, NSA, DHS, and DOJ at the meeting - please advise if this date/time will not work for your agency by 10 am tomorrow so we can confirm the meeting.

Thank you,

(b) (6)

Subject: RE: Working FINAL DRAFT -- Comms Plan for the DIB

All,

Attached please find NSS comments - some of these comments may be OBE since we utilized (b) (6) version from 10:14 this am.

We look forward to receiving another consolidated draft that will incorporate the additional comments circulated today by COB tomorrow.

Per discussion on the call today, we would like to convene another teleconference to discuss the next draft. We suggest 2:30 - 3:30 pm or 4 - 5 pm. Please advise.

Thanks again to all who are contributing to this as it is an important part of the program.

Best,
(b) (6)

Subject: request for assistance: cyber info-sharing mtg

All: Dep U/S Dawn Scalici chair a meeting to develop an action plan for a topic Bruce McConnell nominated at an Info Sharing Governance Board meeting earlier this year. The topic is increasing cybersecurity FOUO tearlines for the private sector CIKR owners/operators. I believe this topic will need to consider burgeoning requirements based on the transfer of the DIB pilot to DHS.

Can you please identify an appropriate person from NPPD to meet with Ms. Scalici and her meeting invitees to help move this initiative forward?

Thank you.

Mike: Here are topics we are preparing for Wed:

1. DHS-DOD Enhanced Cyber Coordination Initiative: Agreement on MOA, activity/timeline for IOC, communications plan
2. DIB Pilot Planning: Agreement on issues that still need to be worked, DHS support to pilot execution, other way ahead actions (scaling pilot)
3. CYBERSTORM III: In light of Deputies guidance yesterday, agreement on DOD actions to assist DHS with development of NCIRP conditions and postures that align with national warning system during crisis
4. US/Canada Cyber Work Plan: Agreement on proposed work plan, timeline for engaging counterparts and cyber/CIP TTX scenario/objectives.

Bob,

Phil mentioned during our SVTC with (b) (6) that we're looking for details on what DEPSECDEF wants to do, and if it is focused on cyber. Jack offered the read ahead, which will be great. In the meantime, he has us working on our current efforts to prepare S2. You also asked for a POC, and Bobbie Stempfley is going to be ours. If it turns out to be more than cyber, we might have to change pocs.

Cheers,
Mike

Subject: RE: Draft Agenda - DIB Meeting

Great edits, (b) (6), (b) (7)(C). Agree that we should swap the order of blocks 2 & 3. Below are some slight tweaks to your slight tweaks.

To follow-up on (b) comments, I believe those topics will be addressed during the block 1 Intro, and what is now block 2 Update & Review... (formerly block 3).

- 9:00-9:15 Welcome and Introduction
- 9:15-9:35 Update and Review of Roles, Information Flow and Use of Information between USG (DoD and DHS), DIBs, and ISPs
- 9:35-11:55 Legal Discussion: Policies and Practices Regarding Monitoring and Consent
 - * Update/Lessons Learned by DIB Companies Regarding Assessment and Implementation of Consent Mechanisms (DIB Companies)
 - * Feedback and Discussion of Pilot Legal Construct for Addressing Consent and Monitoring -- Recommendations for the Way Ahead (Open Discussion)
- 11:55-12:00 Closing Comments - Next Steps (DHS/DoD)

Subject: RE: Draft Agenda - DIB Meeting

(b)(6)-P.L. 86-36 (b) (6)

Will we be discussing with the DIBs and the ISPs about the background of where we are at and the way forward based on the summary of conclusions?

Part of the conversation at the meeting today at DHS revolved around the need to bring the DIB Cos and the ISPs on board with the government's way forward and give them background from the DIB DC SOC, as appropriate. The group believed that needed to be reflected in the agenda as well.

I would like to propose that we add an item that discusses the current status of the Pilot and the government's way forward. Concur?

v/r

Subject: Draft Agenda - DIB Meeting

All,
With thanks to (b) (6) for his input, below is the draft agenda for the DIB Meeting. Our intent is to send this out first thing Monday to allow time for travel plans to be made, with a note suggesting the DIB Companies request their attorneys attend the meeting. We'll provide a supplement for coordination with more specific discussion elements re consent/legality next week.

Please provide any comments to (b) (6) asap.

9:00-9:15 Welcome and Introduction

9:15-10:35 Legal Issues - Consent & Monitoring

. Update/lessons learned on DIB Company activities re banner & consent issues

. Issues and recommendations for the model to address legality of monitoring issues - the way ahead

10:35-10:55 Review of roles, Information Flow and Use of Information between USG (DoD and DHS), DIBs, and ISP

10:55-11:55 DIB Participant Feedback (Open Discussion)

11:55-12:00 Closing Comments - Next Steps (DHS/DoD)

Subject: DoJ's comments on DIB Cybersecurity [Opt-in] Pilot
Importance: High

DoJ finally provided detailed comments on the DIB Pilot yesterday afternoon at a meeting hosted by NSS Counsel, and the news is very good.

Sound Bite: DoJ has concluded that the DIB Pilot is authorized by law, and there will be no legal objection from DoJ at the DC next week.

(b) (5)

More specifically, DoJ provided comments on the three core legal issues:

(b) (5)

(b) (5)

There's lots more detail here, but I suspect this is enough for the readout of our meeting.

 Subject: RE: Opt In DIB Pilot

(b) (6)

As we discussed, believe (b) (6) is looking for DoD, DHS and DoJ to concur with the high level timeline referenced in an email last week - weeks to start COA 2, months to start COA 1. (b) (6) if I am misreading your email, please correct.)

For Phil, Bob and Jim's reference, I am including the referenced email here:

"The quick answer is that COA 2 could start almost immediately (e.g. Finalizing legal agreements that are already in the works should take 3-4 weeks). COA 1 has two key barriers to a start. First, the ISPs will likely request 2511 letters, so DoJ's provision of 3 2511 letters (and the review of DIB company banners as part of that) is one time requirement. DoJ will provide a timeline for that. Second, all participating DIB companies would be required to change their banners to reference government monitoring. All have expressed serious reservations with doing so, including the three CEOs DSD discussed this with. The companies have informally told us that changing the banners in this manner could take months."

Best,

(b)(3)-P.L. 86-36

Mike and Mary Ellen,

Below is a string indicating that NSA is to give an Einstein 3 briefing to the Priv/CRCL sub-IPC Sep 7 at Tim Edgar's request. Can't tell from this string how DHS is plugged in. DoD Director of Priv/CRCL is seeking background TU info from NSA counsel and others. If either of you would like DHS OGC support in any way just let me know.

Mike,

Let's start with an introduction by the attorney experts on these two topics, and then they can point you in the right direction for any further detail you may need.

(b) (6) is our expert for the .dib initiatives, and (b)(3)-P.L. 86-36 is our expert on Einstein.

v/r,

(b) (6)

(b) (6)

I'm trying to get some more info on these 2 projects.
Can you recommend someone I can speak with to get a briefing?

Thanks.

Mike

All,

DEPSECDEF would like to have a meeting on Tuesday, 13 April, 1400-1500 to discuss the plan to meet with DEPSEC DHS Lute on the DIB initiative and gain action within 60 days. Y'all are all much smarter than I so if there is someone not invited (i.e. not on this email) please holler and we will work to accommodate. We need to do this Tuesday in order to facilitate a DEPSECDEF/DEPSEC DHS meeting after DSD Lynn returns from travel.

(b)(6)-P.L. 86

DEPSECDEF would like to invite LTG Alexander if he is inclined to attend. He is also happy to have (b)(6)-P.L. 86 represent NSA if that meets with LTG Alexander's desires/schedule.

Holler with issues!

Hoss

Subject: RE: DPIAC engagement for DIB Pilot evaluation criteria input

I appreciate the vote of confidence. I will be happy to help out to best of my ability. While bumbling around as front-line [DoD] legal advisor to the DIB program (including opt-in pilot) I've been able to engage on a pretty good sampling of the various issues and elements.

With that said, I reckon there are other DoD players that can contribute just as well, so I'll be looking to ensure that we've got the right/best reps to participate -- notwithstanding my name being tossed in the ring first.

As this is first I'm hearing about specific engagement with DPIAC, I'm at a bit of a loss re any particular schedule of events ... please let me know what's next.

Thanks!

Subject: DPIAC engagement for DIB Pilot evaluation criteria input

Nicole,

If DHS's Data Privacy and Integrity Advisory Committee (DPIAC) work on Einstein Implementation can give you useful insights for additional DIB Pilot evaluation criteria that can help DHS make future decisions about the model for E3 and expansion to other sectors, then you should certainly include their recommendations in the DHS list of evaluation criteria.

In our conversation earlier, (b)(6)-P.L. 86 indicated she does not object to this engagement. She suggests (b) (6) would be the best DoD representative given his familiarity with the Pilot and his work on the PIA if you need someone from DoD there.

Thanks,

Jen

Subject: RE: Meeting on DIB

I have attached the DIB banners that we have discussed so far, plus a new one (below the line) provides greater specificity on what the nature of the Government involvement is. I am waiting to hear from NSA whether this causes concern due to its specificity, so this is just an idea at the moment rather than a proposal, but I certainly would be interested in your views as to its adequacy. I have no real idea whether the DIB members would find this approach more acceptable, but it strikes me as plausible that they would, and the more choice we can provide the better.

(b) (5)

Looking forward to meeting with you.

 (b) (6), (b) (7)(C)

Unless you hear differently, all logistics will be the same as last time (see PS of this message). I've copied (b) (6) (b) (6) keeper), for confirmation of, or any deviations from, this plan.

May I ask who all will be joining us?

Please note that I'm inviting David *G.* Delaney also.

Cheers/ (b) (6)

PS- Here's excerpt from (b) (6) message for our last meeting:

 (b) (6) office is located between the Mall and River Entrances of the Pentagon. We are in room (b) (6). If you are arriving in a government car you can be dropped off at either entrance. If you do not have a Pentagon badge, you will need an escort to get in the building. When you arrive at the building, and if you need an escort, please call and someone will come and escort you to the office. If you are arriving via Metro and do not have a Pentagon badge, you will have to go through the security line outside the building. To get through security, you will need two forms of identification (an ID with a photo and a credit card--or something else with your name on it). After clearing security outside the Metro Entrance if you do not have a badge, you will need an escort from the Visitor's Waiting Area which is located just inside the Pentagon (to the left before the turnstiles). If you need an escort, please call the office while you are in line outside the building and someone from the office will start walking to the Visitor's Waiting Area (about a 5 minute walk from the office).

Please arrive about 15-20 minutes early to clear security and walk to the office from the Metro Entrance. The Mall and River Entrances are only a minute from the office but you will still need two forms of identification.

Let me know how you plan to arrive and if you will need an escort.

 Subject: RE: MOA/DIB Pilot Plan

All,
 Pls take a quick look at the track changes on the MOA. Bob asked me to make a few minor changes that should not have any legal ramifications.
 Justifications:

- Delete "24/7" in Para. 5.A.7)e. Cognizance adequately portrays DHS responsibilities in that paragraph.
- Require "quarterly" oversight meetings vice "monthly." Monthly is too frequent for DSD involvement.
- Add PDUSP in the oversight paragraph. Our office overlooked the requirement for Policy oversight in this paragraph. (b) (6) is the right level for this paragraph.
- DIRNSA and COMCYBERCOM are the same person, pls connect with a slash.

Pls let me know if there are any problems with these fixes.

Pete,
DHS has limited participation in this pilot. This is primarily a DOD pilot, so I don't see us doing a PIA for this. (b) (5)

Sir,

Is there a subject matter expert we can work with? I'd like to learn more about what DHS's role is and what info would be coming over to DHS.

Any idea of timing?

With the caveat that I know everyone is stretched very thin right now, I received these DIB pilot TPs from DoD OPA this morning and they're seeking our input.

In speaking with (b) (6), they're not really getting incoming on this, but want to have something in the can for future use. She understands our operational posture at present, and so agreed that our getting back to her on Monday was fine. Can we internally aim for 10 a.m. Monday?

Thanks,
Amy

Amy,

As discussed yesterday, attached is DoD's DIB Opt In Pilot briefing card. The messages come from the coordinated communication plan that you all coordinated on, so there is nothing new.

Was pretty sure this "dib" pilot was not gone into detail at esf mtg but wanted to check. Am also pretty sure will not involve one of our dib fa partners but one or more of esf companies and (b) (6) will have to provide details (assuming they have any). Only heard of the DHS/DoA E3 pilot from a remark butler made (and he'd said he'd just spent an hour on phone with Adm Brown so I suspect its where he heard about it) - am sure its not a usp initiative. I pointed steve to bob & bob, but wanted to see if you knew anything about it. - Gus

Gus,

(b) (5)

The TVI wg recommended a different pilot that leveraged DIB CS information for the IT sector (eventually to possibly include the IT ISAC). I wonder why that pilot is not even mentioned.

Is it possible to meet with Policy so we can get a handle on their initiatives and strategy that overlap with the efforts the DASD is working?

(b) (6) - was this discussed at ESF? Know "pilots" were discussed but not sure this - and note that we are not incl as attendees. Of course, no reason that the DIB company for this has to be one of the FA companies (since there isn't that much overlap) but still.. I am not familiar with DHS/DoA option Steve mentions he needs help on, Bob Butler mentioned it only in passing at mtg on Thurs with no details - Gus

<<...>>

Request coordination from NII, OUSD/I, OGC, and NSA. We learned of mtg today - already behind the curve on meeting DSD office's timeline.

Need help filling in description of DHS option.

March 16, 2011

Pentagon To Help Internet Providers Get Military Cyber Tools

By Gopal Ratnam, Bloomberg News

The U.S. Defense Department plans to start a pilot program offering the military's cyber security tools to Internet service providers for use in detecting and stopping attacks on their networks.

The Pentagon is drafting a proposal to provide the country's top Internet service providers with tools and techniques already available to a group of defense contractors for detecting and fixing cyber attacks, defense officials told [REDACTED]

[REDACTED] with tier-one Internet service providers and see if we can do what we do with defense contractors,² General Keith Alexander, head of the U.S. Cyber Command, told the House Armed Services Committee's panel on emerging threats and capabilities. The program may be expanded to more Internet providers if it proves successful, he said.

The Pentagon has assembled a group of 40 defense contractors that voluntarily share with the Defense Department information on attacks on their networks, malware and suspected data thefts, under a program called the Defense Industrial Base Information Sharing Environment. In exchange, the companies get help fixing weaknesses in their computer systems.

The same approach may be applied to Internet providers during a 90-day pilot program, James Miller, the principal deputy undersecretary of defense for policy, told lawmakers. He didn't specify any companies that may participate in the project.

The program is in a formative, pre-liftoff stage,² Miller said in an interview after his testimony. ³We are working very closely with the Department of Homeland Security on details of how to proceed.²

The Defense Department also is looking to expand the defense contractors' group to include more suppliers and is seeking \$113 million for the project over the next five years, Miller said in his prepared testimony.
