> > June 2007

### Section 1: Introduction (U)

This report is submitted pursuant to Sections 108(a), 306, 406, and 502 of the Foreign Intelligence Surveillance Act of 1978 (FISA or the Act), as amended, 50 U.S.C. §§ 1801-1811, 1821-1829, 1841-1846, 1861-1862. It includes information concerning electronic surveillance, physical searches, pen register/trap and trace surveillance, and requests for access to certain business records for foreign intelligence purposes conducted under the Act by the Federal Bureau of Investigation (FBI), the National Security Agency (NSA), and/or the Central Intelligence Agency (CIA) during the period July 1, 2006, through December 31, 2006.1 Consistent with the Department of Justice's efforts to keep the Congress fully informed about its FISA activities in a manner consistent with the national security, this report contains information beyond that required by the statutory provisions set forth above. In addition to submitting this semi-annual report, the Intelligence Community and the Department provide information to the Congress concerning significant intelligence activities conducted under FISA in a manner consistent with the National Security Act. ## G. Pen Register/Trap and Trace Surveillance (U)

During this reporting period, the United States filed 98 applications with the FISC seeking authorization for the FBI and/or the NSA to conduct pen register/trap and trace surveillance pursuant to 50 U.S.C. §§ 1841-1846, as amended. The FISC denied no applications, as they were originally presented, during this reporting period. Eighteen orders authorizing pen register/trap and trace surveillance were modified by the FISC. (S)

## C. FISC Modifications of Orders (U)

As reported in previous semi-annual reports, in some cases considered by the FISC during the time period covered by this Semi-Annual Report, the FISC has modified orders submitted by the government. Substantive changes (not technical corrections) to orders, are usually handwritten but sometimes are issued as a separate amendment or addendum to an order. The changes made by FISC judges during the period covered by this report include:

the FISC in a combined format with pen register/trap and trace applications. Because of that combination, the number of requests for the production of tangible things increased in past semi-annual reports because the practice of filing combined business record and pen register/trap and trace applications continued. L. FISA Process Improvements (U)

.

Out of scope/non-responsive

In addition to the changes to the FISA process made at the Attorney General's April 2004 direction referenced in prior semi-annual reports, OIPR continues to seek ways to further improve the processing of FISA requests. In particular, and in response to OIPR's growing number of attorneys, as was reported in previous semi-annual reports, OIPR reorganized in November 2004 into sections that reflect the current nature of FISA work and to a significant degree mirror the FBI's internal organization. OIPR's current reorganization is discussed below in Part M. (U)
