Dear 

 like to thank you for the opportunity to perform this work. There are several issues related to the Delivery Orders (DO) that must be resolved in order for us to perform. Without resolution it would be difficult for  support the Customer's efforts and ensure they receive the desired products, in a suitable timeframe at an agreed upon value.

To that we have detailed several changes in copies of the attached DO's and as well as additional comments, assumptions, and questions noted below.

We look forward to resolving these issues soonest and proceeding forward with these DOs

Comments & Considerations for Delivery Order Numbers:

[Redacted]

b3  
b7E

Each Delivery Order (DO) has been established with incremental funding. Statements of Work (SOW) are to be or have been provided. [Redacted] has several questions on the SOW's received thus far necessitating the need for a technical meeting to clarify the requirements and DO deliverables. This Technical meeting must be held within the next few weeks. Once the requirements are clearly defined [Redacted] must prepare and submit proposals to the Customer in order to establish the firm contract value (including COM, and fee) for each DO. Definitization should occur on or before 180 days.

The DO's once formally definitized by the Customer will establish each DO value and Period of Performance (POP).

Assumptions:

- Current Incremental Funding establishes the baseline value and is not to be construed to represent a firm total DO value and is subject to the Limitation of Funds Clause 52.232.22.
- The POP dates called out in each DO of 6/4/2010 – 6/4/2011 will be adjusted based on the negotiations.
- Payment Invoices: Block 9 states an individual to send the invoices to the attention of. Within the body of the DO direction states that the invoices will be submitted to the COTR [Redacted]. [Redacted] Section G.3 lists the Invoice Requirements for the IDIQ.
  - Based on each of these [Redacted] will submit invoices:
    - Original invoice is submitted to the COTR, currently named as [Redacted]. [Redacted] is responsible to review and verify DO progress/acceptance.
    - [Redacted] to affix his verification notice to the original invoice and forward to the cognizant CO who in turn will approve the invoice or recommend corrective action. Approved invoices will be forwarded by the CO to the payment office.
    - Payment Terms will be Net 30 once the COTR received the original invoice.
- Intellectual Property rights assertions will be made, if appropriate, each DO. [Redacted] typically does not provide documentation to the Customer on its internally developed (IRAD).

b3  
b7E  
b6  
b7C

Specific Questions to individual DO's:

- DO [Redacted]
  - Two CLINs (0001 and 0002) are called out.
    - CLIN 0001 [Redacted]
    - CLIN 0002 [Redacted]
- The SOW does not clearly define what is relative to CLIN 0001 and that to CLIN 0002.

b7E

- Customer please clarify why the two CLINs, and how invoices should be handled.

\_\_\_\_\_ Expend funds linearly (expend CLIN 1 up to \_\_\_\_\_ then invoice CLIN 0002 up to \_\_\_\_\_ or whatever the firm DO value is negotiated at).

or

\_\_\_\_\_

\_\_\_\_\_ Expend funds consecutively (Contractor determines apportionment for each CLIN and invoices this amount on the invoices based on the negotiated DO value).

or

\_\_\_\_\_

b7E

b5

- DO \_\_\_\_\_ & DO \_\_\_\_\_
  - DO \_\_\_\_\_ requires \_\_\_\_\_ to study and develop enhancements to the \_\_\_\_\_
  - DO \_\_\_\_\_ orders \_\_\_\_\_
  - The POP for each is noted as 6/4/10-6/4/11.
- \_\_\_\_\_ currently believes that we must perform DO \_\_\_\_\_ to some level prior to engaging in the manufacture and delivery of \_\_\_\_\_
  - POP will need to be adjusted to reflect this. Once the requirements of DO \_\_\_\_\_ are clarified at the upcoming Technical Meeting \_\_\_\_\_ will propose the value and POP to the Customer.
  - The revised hardware is what will be required by \_\_\_\_\_ and the period of performance will remain To Be Defined (TBD) until the outcome of \_\_\_\_\_ allows the team to define the delivery.
  - The per unit price for the \_\_\_\_\_ may change given the hardware update to the Customer's new requirements \_\_\_\_\_
