Here's the most recent version of the legislative proposal (as of last Fall). We are continuing to try to push this in connection with the [redacted] bills that have been floating around in Congress and generally, but things have been a little quiet on that front as of late. I will let you know if there are any developments.

I managed to find the last version of the [redacted] MOU that I had - it is the draft we provided to the [redacted]. It dates back to summer of 2006, which was over a year before we got the [redacted] may have since modified it to account for some of the stuff that [redacted] imposed on us, but it should give you a basic idea of what they pushed out to the [redacted]. We definitely need to add some language about [redacted]. We can work on shoring this up over the next few weeks so that it is ready for prime time whenever [redacted] gets authorized and these folks come knocking...

[Redacted]

I'm assisting [Redacted] with the [Redacted] 09/10 Executive report. One of the takeaways from the meeting yesterday was developing some success stories to include in the report. I want to include a couple (2 or 3) of success stories from both [Redacted] and TTU. The stories only need to be a few sentences describing the situation, action, and results. They should be [Redacted]. The following projects were mentioned as having success stories: FBI-001 [Redacted] FBI-014 [Redacted] FBI-025 [Redacted] FBI-020 [Redacted]

Would you mind passing this on to [Redacted] to have them provide a couple of success stories? If there are success stories in other projects that would fit better have them include that instead. I need to have everything together by COB tomorrow. If you have any questions give me a call.

Thanks,
