Overview of CAPPS II privacy management process

The Office of National Risk Assessment ("ONRA"), under the auspices of the Transportation Security Administration ("TSA"), has been charged with establishing and operating the passenger risk assessment and pre-screening system (CAPPS II) for all major airports and all commercial airlines. This program will serve as the basis for future risk assessment capabilities within TSA.

This Privacy Impact Assessment ("PIA") is based upon the current design of the CAPPS II program. The program is still under design and the PIA will be updated as necessary in order to reflect any changes in the program which may have an impact upon privacy.
