11 (a) FINDINGS.—Congress finds that—

12 (1) the Department of Homeland Security and  
13 its component headquarters facilities are currently  
14 scattered widely throughout the National Capital

16 (2) this geographic dispersal disrupts the De-  
17 partment’s ability to operate in an efficient manner,  
18 and could impair its ability to prevent, deter, pre-  
19 pare for, and respond to a terrorist attack, major  
20 disaster, or other emergencies;

21 (3) the Government Accountability Office con-  
22 tinues to list “Implementing and Transforming the  
23 Department of Homeland Security” on its “High  
24 Risk list”;

1           (4) consolidating the Department's head-  
2           quarters and component facilities, to the greatest ex-  
3           tent practicable, would be an important step in fa-  
4           cilitating the transformation and integration of the  
5           Department; and

6           (5) the President has provided funding for De-  
7           partment consolidation in the fiscal year 2008 budg-  
8           et, and has determined that the only site under the  
9           control of the Federal Government and in the NCR  
10          with the size, capacity, and security features to meet  
11          the Department of Homeland Security's minimum  
12          consolidation needs as identified in the Department  
13          of Homeland Security NCR Housing Master Plan  
14          submitted to Congress on October 24, 2006, is the  
15          West Campus of St. Elizabeths Hospital in the Dis-  
16          trict of Columbia.

17          (b) SENSE OF CONGRESS.—It is the sense of Con-  
18          gress that the consolidation of the Department and its key  
19          component headquarters on the West Campus of St. Eliza-  
20          beths Hospital, to the maximum extent practicable con-  
21          sistent with the Department's Housing Plan as submitted

5 **SEC. 1125. SENSE OF THE CONGRESS ON INTEROPER-**  
6 **ABILITY.**

7 It is the sense of the Congress that efforts to achieve  
8 local, regional, and national interoperable emergency com-

11 gional efforts to properly coordinate and execute their  
12 interoperability plans.

14 Of the amount authorized to be appropriated under

4 **SEC. 1128. AUTOMATED TARGETING SYSTEM FOR PERSONS**  
5 **ENTERING OR DEPARTING THE UNITED**  
6 **STATES.**

7 (a) FINDINGS OF THE 9/11 COMMISSION.—Congress  
8 finds that the National Commission on Terrorist Attacks  
9 Upon the United States (commonly referred to as the 9/  
10 11 Commission) concluded that—

11 (1) “The small terrorist travel intelligence col-  
12 lection and analysis program currently in place has  
13 produced disproportionately useful results. It should  
14 be expanded. Since officials at the border encounter  
15 travelers and their documents first and investigate  
16 travel facilitators, they must work closely with intel-  
17 ligence officials.”;

18 (2) “Information systems able to authenticate  
19 travel documents and detect potential terrorist indi-  
20 cators should be used at consulates, at primary bor-  
21 der inspection lines, in immigration service offices,  
22 and intelligence and enforcement units.”;

23 (3) “The President should direct the Depart-  
24 ment of Homeland Security to lead the effort to de-  
25 sign a comprehensive screening system, addressing

1 common problems and setting common standards  
2 with systemwide goals in mind.”;

3 (4) “A screening system looks for particular,  
4 identifiable suspects or indicators of risk. It does not  
5 involve guesswork about who might be dangerous. It  
6 requires frontline border officials who have the tools  
7 and resources to establish that people are who they  
8 say they are, intercept identifiable suspects, and dis-  
9 rupt terrorist operations.”; and

10 (5) “Inspectors adjudicating entries of the 9/11  
11 hijackers lacked adequate information and knowl-  
12 edge of the rules. A modern border and immigration  
13 system should combine a biometric entry-exit system  
14 with accessible files on visitors and immigrants,  
15 along with intelligence on indicators of terrorist  
16 travel.”.

17 (b) AUTOMATED TARGETING SYSTEM FOR PERSONS  
18 ENTERING OR DEPARTING THE UNITED STATES.—The  
19 Secretary of Homeland Security, acting through the Com-  
20 missioner of Customs and Border Protection, may estab-  
21 lish an automated system for the purpose of the enforce-  
22 ment of United States law, including laws relating to anti-  
23 terrorism and border security, to assist in the screening  
24 of persons seeking to enter or depart the United States  
25 (in this section referred to as the “system”).

1           (c) ADMINISTRATIVE PROCESS TO CORRECT INFOR-  
2 MATION.—The Secretary, acting through the Commis-  
3 sioner, shall ensure that an administrative process is es-  
4 tablished, or application of an existing administrative  
5 process is extended, pursuant to which any individual may  
6 apply to correct any information retained by the system  
7 established under subsection (b). Nothing in this section  
8 shall be construed as creating a private right of action for  
9 any case or claim arising from the application of the sys-  
10 tem or the corrective administrative process established or  
11 applied under this section.

12           (d) RULE OF CONSTRUCTION.—Nothing in this sec-  
13 tion shall be construed as abrogating, diminishing, or  
14 weakening the provisions of any Federal or State law that  
15 prevents or protects against the unauthorized collection or  
16 release of personal records.

Passed the House of Representatives May 9, 2007.

*Clerk.*
