GSA/DoD Designated Agency Representative (DAR) Appointment Form

Washington Interagency Telecommunications 3

In compliance with the GSA contract agreement, a DARA has been appointed. DoD has assigned a DARA (Designated Agency Representative Administrator) to facilitate all appointments of DAR(s). The DARA assigned to you is Jonathan Barb. He is the only official with signature authority to assign DARs as agents to place service orders against the WITS 3 contract. If you have questions call the JSP Service Desk at 703-571-4JSP (4577). This supersedes all previous signature authority notification.

DARs cannot be contractors. As a DAR for your organization, you are responsible to the Agency you represent; in accordance with the WITS 3 contract, your Agency policy and procedures, the Federal Acquisition Regulation (FAR) and applicable anti-deficiency laws. You cannot delegate this responsibility to others. This appointment does not include the right to modify the contract, or any of its terms and conditions, as only the GSA Contracting Officer may make contract modifications. If you have any questions related to your roles and responsibilities as outlined in this letter, please contact the JSP Service Desk at 703-571-4JSP (4577).

Before authorizing orders directly through Service@once and Level 3’s ordering system, Verizon’s and Level 3’s automated ordering and provisioning system for use by federal agencies, you must attend the three-day Service@once training course provided by Verizon and Level 3’s training. If you have not completed Service@once training for Verizon, you may place orders by completing a Service Order Request Form available online at: http://ita.army.mil/CustomerForms.aspx. Be sure to fax the completed form to the appropriate Verizon number for processing. Faxed orders are available for authorization in Service@once, but there is a $25 service-order processing fee. Level 3 training will be available. For training and access please email at PortalAccess@Level3.com

Consider the following in carrying out your responsibilities as a DAR:

- Be familiar with the terms and conditions of the referenced Contract.
- Ensure that a valid obligating document is in place before placing a service order
- Ensure funds are available on the obligating document to fund the service order
- Verify that the service order requirements are consistent with the scope of the Fair Opportunity Decision/Number referenced in the service order
- Keep current on contractual service ordering procedures.
- Meet all appropriate contract automated system security safeguards, such as access to ordering and billing systems.
- Comply with all appropriate Agency standards of conduct.

Promptly notify the JSP Service Desk at 703-571-4JSP (4577) should you no longer be in the role to perform the functions of a DAR, or be separated from your current employment/Government service. Your appointment shall terminate upon notification from your agency or the date you separate from your current employment/Government service, whichever is first. Contact the JSP Service Desk regarding any issues or concerns you may have in your relationship with the contractor.

Your signature below certifies that you accept and understand the responsibilities and limitations contained herein.

U.S. Army Information Technology Agency

5. BAC (if applicable): Independent Commission contracting support services through DoD

6. Justification for BAC: (DISA and WHS). BAC allows billing and payment for services.
POSITION DESCRIPTION (Continuation)

This position is located in the Office of the National Security Commission on Artificial Intelligence (the “Commission”). The President and Congressional leaders, as directed in Section 1051 of the John S. McCain National Defense Authorization Act for FY2019, appointed fifteen members to serve on the Commission. The Commission will conduct a review of the methods and means necessary to advance the development of artificial intelligence, machine learning, and associated technologies by the United States to comprehensively address the national security and defense needs of the United States and then develop findings and recommendations on matters subject to its review to more effectively organize the Federal Government.

MAJOR DUTIES INCLUDE:

- Position is responsible for providing guidance and direction to all members on the Commission staff and is the staff focal point to all of the Commissioners. Incumbent develops, manages, and executes business activities and critical support services to the Commission’s efforts to conduct a comprehensive review of the methods and means to advance the development of artificial intelligence, machine learning and associated technologies.
- Incumbent must have mastery of the profession to lead the work of technical experts and apply comprehensive knowledge of the concepts, principles, practices, laws, regulations, and theories of assigned area of expertise. Incumbent must have expert skills to serve as an expert consultant and advisor on a wide range of complex, sensitive, and far-reaching issues and problems.
- Position requires demonstrated expert level knowledge and skill to collaborate with senior staff to obtain varying opinions on issues that may impact the organization and to advise, assist, and review the work of professionals who are frequent experts in their own assigned areas.
- The incumbent is expected to work with a significant degree of independence and initiative to reach conclusions and solve problems.
- Incumbent must have strong interpersonal skills to interact effectively with executives as well as experts in assigned areas, senior officials of other federal agencies, the media, the public, and Commissioners.

The Executive Director will:

- Be accountable for the Commission meeting all required suspenses
- Advise Commissioners on the vectors and priorities for their substantive work
- Facilitate development of trust and confidence among Commissioners and staff
- Overseer enforcement of quality and rigor in fact-finding and analysis
- Collaborate with Commissioners and Commission staff to ensure objectivity, transparency, and reasonable public access are maintained
- Provide engagement plans for the conduct of studies, to include travel planning and execution, as appropriate
- Maintain control of and efficiently manage Commission’s resources provided by the sponsoring agency
- Report to the Commissioners in accomplishment of their mission
- Manage the activities and direct the staff in supporting the execution of the Commission’s tasks
- Exercise administrative personnel authorities to include developing the appropriate organizational structure, personnel selection and compensation for Commission staff on behalf of the Commission
- Exercise supervisory functions of assigned staff
- Delegate supervisory responsibilities no lower than the Chief of Staff, as appropriate
- Perform other duties as assigned by the Chairman

CONDITIONS OF EMPLOYMENT:

- Incumbent must be able to obtain and maintain a Top Secret/SCI security clearance
- Incumbent is subject to pre-employment drug testing and random drug-testing thereafter.
- The incumbent is required by Public Law 95-521, as amended, to file assumption, annual, and termination public financial disclosure reports (OGE-278) in accordance with procedures prescribed by The Commission.

OTHER INFORMATION:

- DoD CAC will be required for facility and systems access
- Requires access to Pentagon and other National Capital Region DoD facilities
