FBI PRIVACY THRESHOLD ANALYSIS (PTA)

NAME OF SYSTEM: Explosives Reference Tool (EXPeRT)

For efficiency, a system owner or program manager can be aided in making the determination of whether a Privacy Impact Assessment (PIA) is required by conducting and following Privacy Threshold Analysis (PTA).

A PTA contains basic questions about the nature of the system in addition to a basic system description. The questions are as follows:

A. General System Description: Please briefly describe:

1. Type of information in the system:
   a. Reports of Results of Forensic Examinations of Evidence Submissions
   b. Reference Material
   c. Explosives incident reports from FBI, other law enforcement agencies

2. Purpose for collecting the information and how it will be used:
   a. Forensic Reports created by Lab Division examiners are maintained for future reference as an assist in conducting exams and answering queries for future cases.
   b. Reference material assists the examiners in developing conclusions
   c. Incident reports are maintained to help FBI examiners and other Law Enforcement Officials draw conclusions as to patterns and trends, find similar cases from which they can apply lessons learned, or tie cases or incidents together.

3. The system’s structure (including components/subsystems):

4. Means of accessing the system and transmitting information to and from the system:
   The system is accessed via a web browser from any network connected PC.

5. Who within FBI will have access to the information in the system and controls for ensuring that only authorized persons can access the information:
   Access controls are maintained by the system Program Manager in the Lab Division Explosives Unit. Access is controlled by user accounts that are created by either the PM or the system SSO. Determination of who is authorized to be issued a system account is made by the Unit Chief of the Explosives Unit, Laboratory Division.

6. Who outside the FBI will have access to the information in the system and controls for ensuring that only authorized persons can access the information:
   Access Controls for personnel outside the FBI are maintained and implemented as described above for FBI Personnel. Personnel from outside the FBI who may be granted access include members of Local Law Enforcement Agencies

7. Has this system been certified and accredited by the FBI Security Divisions? X Yes _No

This checklist is based on the FBI Privacy Impact Assessment (PIA) for FBI Routine Databases of 4/7/08 as approved 8/29/08 (190-HQ-C1321794 Serial 432, 9/8/08). In accordance with the PIA, this checklist may be used in lieu of any additional PIA (or PTA), so long as every one of the twelve blocks below can be checked. This checklist should be completed by the database manager (or other appropriate official/ as determined by the division) and approved by the Division Privacy Officer.

A. Provide date checklist prepared: February 28, 2011

B. Provide a general description of the system or project that includes: name of the system/project, including associated acronyms; structure of the system/project, purpose; nature of the information in the system and how it will be used; who will have access to the information in the system and the manner of transmission to all users.

application residing on the FBI's Administrative Mainframe and provides

C. Complete checklist (all must be checked as being accurate for this database/application):

_ X_ 1. Information in the system identifies individuals, either directly or indirectly. An individual can be identified indirectly through a combination of
descriptors such as gender, race, birth data, geographic indicator, license number, or license plate number.¹

2. The system derives information from FBI records covered by existing Privacy Act system of records notices (http://foia.fbi.gov/rec_sys.htm) regardless of format in which those records are maintained and/or from information that is publicly available at no cost. (If information comes from FBI records that are not covered by existing systems of records notices, contact the PCLU.)

3. Neither commercial data nor paid subscription service data is included in the database unless that information is derived from existing FBI records.

4. The system can be accessed only by members of a particular office, unit, squad or other similar FBI entity and sharing of information is based strictly on an operational need to know.

5. The system is not used for purposes of pattern-based data mining.

6. Initial and continued access to the system is subject to permission controls enforced by FBI supervisory personnel, including the use of access passwords.

7. Access to the system can be audited.

8. The system is part of an established platform on which a Security Certification and Accreditation has been performed.

9. The system was developed after April 17, 2003.²

* * *

was deployed prior to April 17, 2003 and has not undergone any significant changes that would affect privacy since that time. While a PIA is not required, this PIA for [ ] has been prepared because the existing privacy documentation is more than three (3) years old.

10. If the system maintains information about U.S. citizens or legal permanent residents, it is covered by a published Privacy Act System of Records Notice.

11. Records retention issues have been discussed with the Records Management Division.

12. Any personally identifiable information placed on a mobile device or on media that is transported outside FBI facilities must comply with the FBI policy on encryption and must be password protected.

¹ Systems that do not contain any personally identifiable information need not complete this checklist.

² Systems developed before April 17, 2003, and not modified since then are not required to conduct a PIA until a modification occurs that would change the privacy risks to information in the system.

UNCLASSIFIED//FOR OFFICIAL USE ONLY
D. If a database contains information that may be considered sensitive/controversial or is maintained as part of a larger FBI program, the database administrator or program manager (or division privacy officer) must consult with the FBI's Office of the General Counsel, Privacy and Civil Liberties Unit about the potential need to assess the privacy risks in a separate PIA.

E. File Notes (summarize any additional information that may be warranted for record purposes, e.g., coordination with OGC, etc.):

OGC is developing a but no deployment date has yet been scheduled.

FBI PRIVACY THRESHOLD ANALYSIS (PTA)
NAME OF SYSTEM: b3

For efficiency, a system owner or program manager can be aided in making the determination of whether a Privacy Impact Assessment (PIA) is required by conducting and following Privacy Threshold Analysis (PTA).

A PTA contains basic questions about the nature of the system in addition to a basic system description. The questions are as follows:

A. General System Description: Please briefly describe:

1. Type of information in the system:

   a. If the system is solely related to internal government operations please provide a brief explanation of the quantity and type of employee/contractor information:

3. The system’s structure (including components/subsystems):
