I. INFORMATION ABOUT THE SYSTEM / PROJECT

1. Provide a general description of the system or project that includes: name of the system/project, including associated acronyms; structure of the system/project, purpose; nature of the information in the system and how it will be used; who will have access to the information in the system and the manner of transmission to all users.

Name of the system/project: The name of the system is "Delta." "Delta" is not an acronym.

Structure of the system/project: The Delta system stores data regarding Confidential Human Sources (CHSs). Delta's users can also

Purpose: In order to respond to a post-9/11 environment and to the recommendations from the 9/11 Commission and the Weapon of Mass Destruction Commission for changes in the intelligence community, significant changes in the FBI's Asset/Informant program were warranted. The Delta system was designed and executed in response to these recommendations and in response to directives from Congress and the Department of Justice (DOJ). It implements improvements for the management and administration of the FBI's CHSs and their intelligence. Delta addresses every aspect of handling information and intelligence derived from CHSs. Furthermore, Delta provides enhanced security to protect CHS identifying information and also leverages the existing security enhancements provided by the Public Key Infrastructure (PKI).

Nature of the information in the system: By policy, Delta contains information that each CHS the FBI operates is also captured and maintained in Delta. Intelligence information is shared among the operational divisions within the FBI. Intelligence Analysts also

Lastly, FBI Agents use the information for case investigation and management.

How information in the system will be used: Delta users are Special Agents, Supervisory Special Agents, Intelligence Analysts, in the Delta system a Case Agent for the CHS. Access to information is highly controlled and strictly enforced by the system.

Who will have access to the information and the manner of transmission to all users:

4. Is information about United States citizens or lawfully admitted permanent resident aliens retrieved from the system/project by name or other personal identifier?

___ NO. ___ YES.

5. Are Social Security Numbers (SSNs) collected, maintained or disseminated from the system/project?

___ NO. ___ YES. If yes, check all that apply:

___ SSNs are necessary to establish/confirm the identity of subjects, victims, witnesses or sources in this law enforcement or intelligence activity.

___ SSNs are necessary to identify FBI personnel in this internal administrative system.

___ SSNs are important for other reasons. Describe:

___ The system/project provides special protection to SSNs (e.g., SSNs are encrypted, hidden from all users via a look-up table, or only available to certain users). Describe: SSNs are considered sensitive information about a CHS. Consequently, access to this information is limited by a role-based access security feature in Delta. By policy, only a
