UNCLASSIFIED // FOUO

FINAL FBI APPROVAL / DETERMINATIONS / CONDITIONS:

___ PIA is required by the E-Government Act.

___ PIA is to be completed as a matter of FBI/DOJ discretion.

Is PIA to be published on FBI.GOV (after any RMD FOIA redactions)? ___ Yes. ___ No (indicate reason):

___ PIA is not required for the following reason(s):
   ___ System does not collect, maintain, or disseminate PII.
   ___ System is grandfathered (in existence before 4/17/2003; no later changes posing significant privacy risks).
   ___ Information in the system relates to internal government operations.
   ___ System has been previously assessed under an evaluation similar to a PIA.
   ___ No significant privacy issues (or privacy issues are unchanged).
   ___ Other (describe): This application is not流转 PII. Therefore, there is no privacy risk.

Applicable SORN(s): N/A

Notify FBI RMD/RIDS per MIOG 190.2.3? ___ No ___ Yes—See sample EC on PCLU intranet website here: http://home/DO/OGC/LTB/PCLU/PrivacyCivil%20Liberties%20Library/form_for_mioG190-2-3_ec.wpd

SORN/SORN revision(s) required? ___ No ___ Yes (indicate revisions needed):

Prepare/revise/add Privacy Act (e)(3) statements for related forms? ___ No ___ Yes (indicate forms affected):

n/a

RECORDS. The program should consult with RMD to identify/resolve any Federal records/electronic records issues. The system may contain Federal records whether or not it contains Privacy Act requests and, in any event, a records schedule approved by the National Archives and Records Administration is necessary. RMD can provide advice on this as well as on compliance with requirements for Electronic Recordkeeping Certification and any necessary updates.

I. INFORMATION ABOUT THE SYSTEM / PROJECT

1. Provide a general description of the system or project that includes: (a) name of the system/project, including associated acronyms; (b) structure of the system/project, including interconnections with other projects or systems; (c) purpose of the system/project; (d) nature of the information in the system/project and how it will be used; (e) who will have access to the information in the system/project; (f) and the manner of transmission to all users.

supports the management of

Directorate of Intelligence. The application allows a user to

Information is manually entered into the Application via predefined data entry screens. Users may view the information using predefined queries and reports.

Users of the application are FBI Headquarters and Field personnel with a need to

Access to

is limited to selected personnel

All access to the Application is approved by

The Application is part of the Investigative Mainframe Applications that run on the FBINET closed network. FBINET can only be accessed by authorized persons.

2. Does the system/project collect, maintain, or disseminate any information about individuals (i.e., a human being or natural person, regardless of nationality)?

X NO

___ YES [If yes, please continue.]
3. Please indicate if any of the following characteristics apply to the information in the system about individuals: Bear in mind that log-on information may identify or be linkable to an individual. (Check all that apply.)

____ The information directly identifies specific individuals.

____ The information is intended to be used, in conjunction with other data elements, to indirectly identify specific individuals.

____ The information can be used to distinguish or trace an individual's identity (i.e., it is linked or linkable to specific individuals).

If you marked any of the above, proceed to Question 4.

____ None of the above. If none of the above, describe why the information does not identify specific individuals either directly or indirectly.

4. Does the system/project pertain only to government employees, contractors, or consultants?

____ NO  ______ YES

5. Is information about United States citizens or lawfully admitted permanent resident aliens retrieved from the system/project by name or other personal identifier?

____ NO. [If no, skip to question 7.]

____ YES. [If yes, proceed to the next question.]

6. Does the system/project collect any information directly from the person who is the subject of the information?

____ NO  [If no, proceed to question 7.]

____ YES

a. Does the system/project support criminal, CT, or FCI investigations or assessments?

____ NO
UNCLASSIFIED // FOUO

____ YES  [If yes, proceed to question 7.]

b. Are subjects of information from whom the information is directly collected provided a written Privacy Act (e)(3) statement (either on the collection form or via a separate notice)?

____ NO [The program will need to work with PCLU to develop/implement the necessary form(s).]

____ YES  Identify any forms, paper or electronic, used to request such information from the information subject:

7. Are Social Security Numbers (SSNs) collected, maintained or disseminated from the system/project? Full SSNs should only be used as identifiers in limited instances.

____ NO  ____ YES  If yes, check all that apply:

____ SSNs are necessary to establish/confirm the identity of subjects, victims, witnesses or sources in this law enforcement or intelligence activity.

____ SSNs are necessary to identify FBI personnel in this internal administrative system.

____ SSNs are important for other reasons. Describe:

____ The system/project provides special protection to SSNs (e.g., SSNs are encrypted, hidden from all users via a look-up table, or only available to certain users). Describe:

____ It is not feasible for the system/project to provide special protection to SSNs. Explain:

8. Is the system operated by a contractor?

____ No.

____ Yes. Information systems operated by contractors for the FBI may be considered Privacy Act systems of records. The Federal Acquisition Regulation contains standard contract clauses that must be included in the event the system collects, maintains or disseminates PII and additional requirements may be imposed as a matter of Department of Justice policy. Consultations with the
UNCLASSIFIED // FOUO

Office of the General Counsel may be required if a contractor is operating the system for the FBI.

9. Has the system undergone Certification & Accreditation (C&A) by the FBI Security Division (SecD)?

____ NO  If no, indicate reason; if C&A is pending, provide anticipated completion date:

____ YES  If yes, please indicate the following, if known:

Provide date of last C&A certification/re-certification:

Confidentiality:  ___Low  ___Moderate  ___High  ___Undefined

Integrity:  ___Low  ___Moderate  ___High  ___Undefined

Availability:  ___Low  ___Moderate  ___High  ___Undefined

____ Not applicable – this system is only paper-based.

____ NO

____ YES  If yes, please describe the data mining function:

11. Is this a national security system (as determined by the SecD)?

____ NO  ____ YES

12. Status of System/ Project:

____  This is a new system/ project in development.

II. EXISTING SYSTEMS / PROJECTS

1. When was the system/project developed?

2. Has the system/project undergone any significant changes since April 17, 2003?

____ NO  [If no, proceed to next question (II.3).]
YES  If yes, indicate which of the following changes were involved (mark all changes that apply, and provide brief explanation for each marked change):

_____ A conversion from paper-based records to an electronic system.

_____ A change from information in a format that is anonymous or non-identifiable to a format that is identifiable to particular individuals.

_____ A new use of an IT system/project, including application of a new technology, that changes how information in identifiable form is managed. (For example, a change that would create a more open environment and/or avenue for exposure of data that previously did not exist.)

_____ A change that results in information in identifiable form being merged, centralized, or matched with other databases.

_____ A new method of authenticating the use of and access to information in identifiable form by members of the public.

_____ A systematic incorporation of databases of information in identifiable form purchased or obtained from commercial or public sources.

_____ A new interagency use or shared agency function that results in new uses or exchanges of information in identifiable form.

_____ A change that results in a new use or disclosure of information in identifiable form.

_____ A change that results in new items of information in identifiable form being added into the system/project.

_____ Changes do not involve a change in the type of records maintained, the individuals on whom records are maintained, or the use or dissemination of information from the system/project.

_____ Other [Provide brief explanation]:

3. Does a PIA for this system/project already exist?

_____ NO  _____ YES

If yes:

a. Provide date/title of the PIA:

b. Has the system/project undergone any significant changes since the PIA?

1. INFORMATION ABOUT THE SYSTEM / PROJECT

1. Provide a general description of the system or project that includes: (a) name of the system/project, including associated acronyms; (b) structure of the system/project, including interconnections with other projects or systems; (c) purpose of the system/project; (d) nature of the information in the system/project and how it will be used; (e) who will have access to the information in the system/project; (f) and the manner of transmission to all users.

The Child Exploitation Tracking System (CETS) is a web-based application available from the FBI’s Innocent Images Office. CETS will be used as a deconfliction tool by FBI personnel internally and between federal, state, local, and international law enforcement agencies who are investigating child exploitation cases. CETS will provide approved authorized FBI users the ability to share investigative intelligence and images in child pornography cases.

CETS will contain images originally obtained from various law enforcement entities. These images have been seen in or identified through child exploitation cases. Not all images are considered child pornography, however, most of them are considered child exploitation material.

Victims: There will be no victim names or addresses maintained in the system, but there will be images

Nothing in CETS (including any image) refers to the victim’s true name.

Subjects: This would include the subject Name

\(^1\) CETS will only be available to those state, local, or international law enforcement individuals.
2. Does the system/project collect, maintain, or disseminate any information about individuals (i.e., a human being or natural person, regardless of nationality)?

___ NO

X YES  [If yes, please continue.]

3. Please indicate if any of the following characteristics apply to the information in the system about individuals: Bear in mind that log-on information may identify or be linkable to an individual.

(Check all that apply.)

X The information directly identifies specific individuals.

X The information is intended to be used, in conjunction with other data elements, to indirectly identify specific individuals.

X The information can be used to distinguish or trace an individual’s identity (i.e., it is linked or linkable to specific individuals).

If you marked any of the above, proceed to Question 4.

___ None of the above. If none of the above, describe why the information does not identify specific individuals either directly or indirectly

4. Does the system/project pertain only to government employees, contractors, or consultants?

X NO  ___ YES
5. Is information about United States citizens or lawfully admitted permanent resident aliens retrieved from the system/project by name or other personal identifier?

___ NO. [If no, skip to question 7.]

X  YES. [If yes, proceed to the next question.]

6. Does the system/project collect any information directly from the person who is the subject of the information?

X  NO  [If no, proceed to question 7.] However, CETS will

___ YES

a. Does the system/project support criminal, CT, or FCI investigations or assessments?

___ NO

X  YES  [If yes, proceed to question 7.]

b. Are subjects of information from whom the information is directly collected provided a written Privacy Act (e)(3) statement (either on the collection form or via a separate notice)?

___ NO [The program will need to work with PCLU to develop/implement the necessary form(s).]

___ YES Identify any forms, paper or electronic, used to request such information from the information subject:

7. Are Social Security Numbers (SSNs) collected, maintained or disseminated from the system/project? Full SSNs should only be used as identifiers in limited instances.

X  NO  ___ YES  If yes, check all that apply:

_____ SSNs are necessary to establish/confirm the identity of subjects, victims, witnesses or sources in this law enforcement or intelligence activity.

_____ SSNs are necessary to identify FBI personnel in this internal administrative system.
SSNs are important for other reasons. **Describe:**

The system/project provides special protection to SSNs (e.g., SSNs are encrypted, hidden from all users via a look-up table, or only available to certain users). **Describe:**

It is not feasible for the system/project to provide special protection to SSNs. **Explain:**

8. Is the system operated by a contractor?

   - **X** No.
   - **Yes.** Information systems operated by contractors for the FBI may be considered Privacy Act systems of records. The Federal Acquisition Regulation contains standard contract clauses that must be included in the event the system collects, maintains or disseminates PII and additional requirements may be imposed as a matter of Department of Justice policy. Consultations with the Office of the General Counsel may be required if a contractor is operating the system for the FBI.

9. Has the system undergone Certification & Accreditation (C&A) by the FBI Security Division (SecD)?

   - **X** NO
   - **If no, indicate reason; if C&A is pending, provide anticipated completion date:** Pending with an anticipated completion date of 2/13/2013; however, Security Division (SecD) has determined the below categories for CETS. On August 13, 2012, SecD granted CETS an Authority to Test for 180 days, beginning on August 13, 2012.

   Once this PTA is completed, the Innocent Images Office may begin testing in accordance with the ATT requirements, which include purging all of the data from the test environment at the end of the testing.

   - **YES**

   **If yes, please indicate the following, if known:**

   **Provide date of last C&A certification/re-certification:**

   **Confidentiality:** Low **X** Moderate High Undefined

   **Integrity:** Low **X** Moderate High Undefined

   **Availability:** **X** Low Moderate High Undefined

**FINAL FBI APPROVAL / DETERMINATIONS / CONDITIONS:**

- PIA is required by the E-Government Act.
- PIA is to be completed as a matter of FBI/DOJ discretion.

**Is PIA to be published on FBI.GOV (after any RMD FOIA redactions)?**
- Yes.  No

- PIA is not required for the following reason(s):
  - System does not collect, maintain, or disseminate PII.
  - System is grandfathered (in existence before 4/17/2003; no later changes posing significant privacy risks).
  - Information in the system relates to internal government operations.
  - System has been previously assessed under an evaluation similar to a PIA.
  - No significant privacy issues (or privacy issues are unchanged).
  - Other

**Prepare/revise/add Privacy Act (e)(3) statements for related forms?**
- No  Yes

**RECORDS.** The program should consult with RMD to identify/resolve any Federal records/electronic records issues. The system may contain Federal records whether or not it contains Privacy Act requests and, in any event, a records schedule approved by the National Archives and Records Administration is necessary. RMD can provide advice on this as well as on compliance with requirements for Electronic Recordkeeping Certification and any necessary updates.

I. INFORMATION ABOUT THE SYSTEM / PROJECT

1. Provide a general description of the system or project that includes: name of the system/project, including associated acronyms; structure of the system/project, purpose; nature of the information in the system and how it will be used; who will have access to the information in the system and the manner of transmission to all users.

The Security Division's Accreditation Unit has conducted a review of certification documents and each is required to sign a User Agreement incorporating the CJIS Security Policy is subject to CJIS Division audits and any infraction is reported to and considered by the CJIS Advisory Policy Board.

has been assessed as a Tier Level 3 in accordance with the FBI Certification and Accreditation Handbook. The Levels of Concern (LoC) are High for Confidentiality, Integrity and Availability. is a Sensitive But Unclassified system operating in the System High Security Operating Mode.

In relation to personally identifiable information (PII), administrative accounts are created that contain usernames and passwords for a limited number of FBI employees/contractors engaged in system administration and maintenance. This methodology of administration has been implemented since the system was established in 1996. These accounts are used to administer the system for continued operations and are wholly internal in nature. The does not store or keep any user data for data only exists on the Privacy issues for
2. Does the system/project collect, maintain, or disseminate any information about individuals in identifiable form, i.e., is information linked to or linkable to specific individuals (which is the definition of personally identifiable information (PII))?

_____ NO. [If no, STOP. The PTA is now complete and after division approval(s) should be submitted to FBI OGC/PCLU for final FBI approval. Unless you are otherwise advised, no PIA is required.]

___ X ___ YES. PII _____ is not considered to be collected, maintained, or disseminated by the _____ and any such PII would be addressed by PTAs/PIAs of the __________. However, the _____ does contain some user account data containing user names and passwords for FBI employees.
3. Does the system/project pertain only to government employees, contractors, or consultants?

____ NO.  ____ X__ YES.

4. Is information about United States citizens or lawfully admitted permanent resident aliens retrieved from the system/project by name or other personal identifier?

____ NO.  ____ X__ YES. Account information is retrieved by user names.

5. Are Social Security Numbers (SSNs) collected, maintained or disseminated from the system/project?

____ X__ NO.  ____ YES. If yes, check all that apply:

_____ SSNs are necessary to establish/confirm the identity of subjects, victims, witnesses or sources in this law enforcement or intelligence activity.

_____ SSNs are necessary to identify FBI personnel in this internal administrative system.

_____ SSNs are important for other reasons. Describe:

_____ The system/project provides special protection to SSNs (e.g., SSNs are encrypted, hidden from all users via a look-up table, or only available to certain users). Describe:

_____ It is not feasible for the system/project to provide special protection to SSNs. Explain:

6. Does the system/project collect any information directly from the person who is the subject of the information?

____ X__ NO. [If no, proceed to question 7.]

_____ YES.

a. Does the system/project support criminal, CT, or FCI investigations or assessments?

_____ YES.  [If yes, proceed to question 7.]

_____ NO.
b. Are subjects of information from whom the information is directly collected provided a written Privacy Act (e)(3) statement (either on the collection form or via a separate notice)?

_____ NO. [The program will need to work with PCLU to develop/implement the necessary form(s).]

_____ YES. Identify any forms, paper or electronic, used to request such information from the information subject:

7. Has the system undergone Certification & Accreditation (C&A) by the FBI Security Division (SecD)?

_____ NO. If no, indicate reason; if C&A is pending, provide anticipated completion date:

__X__ YES. If yes, provide date of last C&A certification/re-certification: The ______ was certified on 2009-12-02.

_____ Don't Know.

8. Is this system/project the subject of an OMB-300 budget submission?

_____ NO. ______ Don't know. __X__ YES (entire system). If yes, please provide the date and name or title of the OMB submission:

Date of Submission: 2010-01-22
UPI: 011-10-02-00-01-2903-00

9. Is this a national security system (as determined by the SecD)?

__X__ NO. ______ YES. ______ Don't know.

10. Status of System/Project:

_____ This is a new system/project in development.

II. EXISTING SYSTEMS / PROJECTS

1. When was the system/project developed? 1996

2. Has the system/project undergone any significant changes since April 17, 2003?

__X__ NO. The ______ is merely a name change accompanying a ______ maintenance in the ______ do not involve a change in the type of records maintained by the category of individuals on whom these records are maintained, or the use or dissemination of this information from the system.
[If no, proceed to next question (II.3).]

_____ YES. If yes, indicate which of the following changes were involved (mark all boxes that apply):

_____ A conversion from paper-based records to an electronic system.

_____ A change from information in a format that is anonymous or non-identifiable to a format that is identifiable to particular individuals.

_____ A new use of an IT system/project, including application of a new technology, that changes how information in identifiable form is managed. (For example, a change that would create a more open environment and/or avenue for exposure of data that previously did not exist.)

_____ A change that results in information in identifiable form being merged, centralized, or matched with other databases.

_____ A new method of authenticating the use of and access to information in identifiable form by members of the public.

_____ A systematic incorporation of databases of information in identifiable form purchased or obtained from commercial or public sources.

_____ A new interagency use or shared agency function that results in new uses or exchanges of information in identifiable form.

_____ A change that results in a new use or disclosure of information in identifiable form.

_____ A change that results in new items of information in identifiable form being added into the system/project.

Changes do not involve a change in the type of records maintained, the individuals on whom records are maintained, or the use or dissemination of information from the system/project.

_____ Other. [Provide brief explanation]:

3. Does a PIA for this system/project already exist?   ___X___ NO.

   a. Provide date/title of the PIA:

   b. Has the system/project undergone any significant changes since the PIA?   ___NO.   ___YES.

FBI PTA: Child Pornography Victim Assistance Tracking System (CPVA)

FINAL FBI APPROVAL / DETERMINATIONS / CONDITIONS:

___ PIA is required by the E-Government Act.

___ PIA is to be completed as a matter of FBI/DOJ discretion.

Is PIA to be published on FBI GOV (after any RMD FOIA redactions)? ___ Yes. ___ No

X PIA is not required for the following reason(s):

___ System does not collect, maintain, or disseminate PII.
___ System is grandfathered (in existence before 4/17/2003; no later changes posing significant privacy risks).
___ Information in the system relates to internal government operations.
___ System has been previously assessed under an evaluation similar to a PIA.
___ No significant privacy issues (or privacy issues are unchanged).
X Other:

This PTA is prepared in conjunction with a change in the way the FBI’s Office of Victim Assistance (OVA) electronically stores data pertaining to victims of child pornography. The data previously stored in the Tracking System’s Access database is now being stored in an Oracle database. This change does not create any additional privacy issues. The data remains accessible only by FBI personnel with a specific need-to-know, presently consisting of OVA employees, along with any necessary IT personnel supporting the Tracking System. In CP cases investigated by the FBI, local FBI Victim Specialists add the same victim information to the Department of Justice’s Victim Notification System (VNS).

The Central Records System contains information on individuals “who relate in any manner to official FBI investigations including... victims.” 63 Fed. Reg. 8671.

Notify FBI RMD/RIDS per MIOG 190.2.3? ___ No ___ Yes--See sample EC on PCLU intranet website here: http://home/DO/OGC/LTB/PCLU/PrivacyCivil%20Liberties%20Library/form_for_miof190-2-3_ec.wpd

EPIC-1983
I. INFORMATION ABOUT THE SYSTEM / PROJECT

I. Provide a general description of the system or project that includes: (a) name of the system/project, including associated acronyms; (b) structure of the system/project, including interconnections with other projects or systems; (c) purpose of the system/project; (d) nature of the information in the system/project and how it will be used; (e) who will have access to the information in the system/project; (f) and the manner of transmission to all users.

This PTA is prepared in conjunction with the internal transfer of personally identifiable information (PII) about child pornography victims from a Microsoft Access database to an Oracle-based database.

Pursuant to the Crime Victims’ Rights Act of 2004 (18 U.S.C. § 3771) and the Child Victims’ Rights Act (18 U.S.C. § 3509), a victim of child pornography or exploitation (CP) is entitled to notice each and every time the victim’s image is the basis for a federal CP investigation or prosecution. In addition, crime victims have the right to submit a Victim Impact Statement (VIS) in related legal or parole proceedings.

The Child Pornography Victim Assistance (CPVA) program is a joint initiative between the FBI, DOJ (the Child Exploitation and Obscenity Section as well as U.S. Attorney offices), the United States Postal Inspection Service (USPIS), Immigration and Customs Enforcement (ICE) and the National Center for Missing and Exploited Children (NCMEC). CPVA’s goal is to streamline the notification process in order to minimize the trauma of numerous, never-ending contacts which may occur as CP images subsequently appear in an infinite number of potential investigations.

DOJ component responsibilities for victim assistance programs in general and CP victims in particular are outlined in the Attorney General Guidelines for Witness and Victim Assistance (May 2005) (Guidelines). In addition to statutory responsibilities, the Guidelines require the FBI, when it is the lead investigating agency, to notify crime victims of their rights and offer victim assistance services. Guidelines, section II.1. Victims are free to decline to receive further services or assistance. In such cases, however, the Guidelines recommend properly documenting the victim’s informed declination of mandatory rights and services.

Within the FBI, the Office of Victim Assistance (OVA) coordinates the CPVA program. In order to facilitate victim assistance while avoiding trauma to victims resulting from repeated and unwanted notice by law enforcement (LE) agencies and U.S. Attorney’s Offices of additional incidents involving their images, OVA maintains a

---

1 NCMEC is a private non-profit organization established by the Congress to provide services nationwide for families and professionals in the prevention of abducted, endangered and sexually exploited children.

2 See 42 U.S.C. § 5771 et seq.

3 Due to the nature of modern technology, a CP victim’s image may repeatedly appear in multiple investigations over a number of years. Because of the traumatic effects of repeated notifications, many CP victims choose to waive their rights to notice in each and every investigation.
tracking system (the CPVA containing the names, contact information and notification preferences of previously identified CP victims in matters investigated by federal, state or local LE agencies). CPVA contains limited victim biographical data including name, address, race and date of birth (DOB), contact information for a parent or legal guardian of a minor victim, POC information for any LE agency that has previously conducted an investigation based on images of the same victim and whether the victim has previously waived (opted out of) the right to receive notice of additional investigations or to submit a VIS. If a particular victim has not previously waived that right, he/she will continue to be notified by LE agencies whenever the victim’s image appears in any subsequent investigation. CP victims who have previously opted out of notice and VIS rights and wish to change their mind may do so by contacting OVA, the local FBI Victim Specialist or the local U.S. Attorney’s Office.

The process by which victim information is ultimately placed in the CPVA DB begins when a LE agency recovers pornographic images depicting CP victims and submits the images to NCMEC for identification of victims depicted. NCMEC assigns a series name, such as “Blossom,” to the images and notifies the contributing agency that no match was found. If the images match one or more victims already contained in CRIS, NCMEC notifies the investigating agency of the series name(s) assigned to any group of images in which the victim was depicted and also provides contact information for the POC of the identified series.

When matching images are submitted to NCMEC by a federal LE agency, NCMEC also notifies OVA that a match has occurred. OVA prepares and forwards a Victim Information Report (VIR), containing victim information from CPVA, to the investigating federal agency. The VIR includes victim identification (name, DOB, address, telephone number, and the relationship of the legal guardian, if any, to the victim) and whether the victim has previously opted out of notification and VIS submission rights. Unless the victim has opted out, the VIR also identifies the method (letter, e-mail

---

5 The identification, contact and notice preference information is provided to OVA by the investigating LE agency, pursuant to provisions of the Child Victim’s Rights Act. The Department of Justice maintains a Victim Notification System (VNS) containing contact information to ensure that crime victims receive post-arrest notifications of judicial and custodial (i.e., parole) proceedings. Where the FBI is the investigating LE agency, the local FBI Victim Specialist adds the victim information to the VNS.

4 A series may contain images of more than one victim.

5 NCMEC provides OVA with the names of the series in which a victim appears along with a NCMEC tracking number. NCMEC does not possess information identifying any victim other than the name of the series in which a particular victim was depicted.

6 VIRs are provided only to federal LE agencies; they are not provided to state or local LE agencies.
or both) by which the victim prefers to be contacted by LE agencies.\textsuperscript{7} If the named series depicts more than one identified victim, the VIR provides information for each victim.

Whenever OVA is notified of a new series by NCMEC, OVA requests the investigating LE agency obtain notification preference information from the victim(s). When the FBI itself is the investigating agency, victims are contacted by the Case Agent or the local FBI Victim Specialist to obtain the information needed to complete the OVA Notification Preference form. The form seeks basic identification information (name, DOB, address, phone numbers, e-mail address, race and gender) and contains check boxes by which the victim may waive notification and VIS submission rights. After the form is signed by the victim (and parent or guardian if appropriate), it is forwarded to OVA, where the victim’s information and preferences are entered into CPVA. The local Victim Specialist also enters the victim’s information and preferences into DOJ’s Victim Notification System (VNS). See note 3, supra.

Similarly, in cases being investigated by another LE agency in which one or more victims are identified in a new named series, OVA requests the investigating agency obtain and forward victim preference information. The OVA’s Notification Preference form is available for use by other LE agencies, but the investigating agency is free to collect and forward victim information and preferences to OVA in any manner they choose.\textsuperscript{3}

On a quarterly basis, NCMEC also provides OVA with a cumulative listing of all named series submitted by both federal and non-federal LE agencies, along with an agency POC. OVA reviews this information to determine whether the victim’s preferences are already contained in CPVA; if not, OVA requests the pertinent LE agency to obtain that information.

Because the Tracking System contains sensitive data, access is restricted to FBI employees with a specific need to know: the CPVA Program Manager\textsuperscript{b7E} While the Program Manager has the ability to grant access privileges to additional personnel, there are no plans at present for such access.

The information in CPVA resides on the FBI’s secure internal network, Secret Enclave. Secret Enclave is accredited to store information classified at or below the SECRET level\textsuperscript{b7E} Victim Notification Preference forms. These forms are not

\textsuperscript{7} Once a CP victim becomes an adult, the victim’s parent or legal guardian information is no longer provided in the VIR, the information remains in the CPVA DB, although RMD will work with OVA to determine the applicable retention period.

\textsuperscript{3} While investigating LE agencies are required by the CPVA to provide OVA with victim notification and VIS preferences, OVA has no authority to compel non-FBI entities to provide such information.

\textsuperscript{3} A limited number of FBI IT personnel, serving as system administrators, also have access to the DB for maintenance and security purposes.
FBI PTA: Child Pornography Victim Assistance Tracking System (CPVA)

filed, nor may they be retrieved, by the name of a CP victim; the forms are instead filed
by the Series Name assigned by NCMEC.

2. Does the system/project collect, maintain, or disseminate any information about
individuals (i.e., a human being or natural person)?

___ NO

___ YES  [If yes, please continue.]

3. Please indicate if any of the following characteristics apply to the information in the
system about individuals: Bear in mind that log-on information may identify or be
linkable to an individual.
(Check all that apply.)

___ YES. The information directly identifies specific individuals.

___ NO. The information is intended to be used, in conjunction with other data elements,
to indirectly identify specific individuals.

___ The information can be used to distinguish or trace an individual’s identity (i.e., it
is linked or linkable to specific individuals).

___ None of the above. If none of the above, describe why the information does not
identify specific individuals either directly or indirectly.

4. Does the system/project pertain only to government employees, contractors, or
consultants?

___ YES

___ NO

5. Is information about United States citizens or lawfully admitted permanent resident
aliens retrieved from the system/project by name or other personal identifier?

___ NO.

___ YES.  [If yes, proceed to the next question.]

6. Does the system/project collect any information directly from the person who is the
subject of the information?

___ NO

___ YES
UNCLASSIFIED//FOR OFFICIAL USE ONLY

FBI PTA: Child Pornography Victim Assistance Tracking System (CPVA)

a. Does the system/project support criminal, CT, or FCI investigations or assessments?

   X  NO

   As previously explained, CPVA contains information obtained by investigating LE agencies regarding the notice and VIS submission preferences of a CP victim (or a parent or guardian, where appropriate). While the information results from one or more CP investigations, CPVA itself does not directly support an investigation or assessment.

   YES  [If yes, proceed to question 7.]

b. Are subjects of information from whom the information is directly collected provided a written Privacy Act (e)(3) statement (either on the collection form or via a separate notice)?

   NO

   X  YES  Identify any forms, paper or electronic, used to request such information from the information subject:

   The Notification Preference form used by the FBI to collect information from CP Victims includes a written Privacy Act (e)(3) statement.

7. Are Social Security Numbers (SSNs) collected, maintained or disseminated from the system/project? Full SSNs should only be used as identifiers in limited instances.

   X  NO  YES  If yes, check all that apply:

   SSNs are necessary to establish/confirm the identity of subjects, victims, witnesses or sources in this law enforcement or intelligence activity.

   SSNs are necessary to identify FBI personnel in this internal administrative system.

   SSNs are important for other reasons. Describe:

   The system/project provides special protection to SSNs (e.g., SSNs are encrypted, hidden from all users via a look-up table, or only available to certain users). Describe:

   It is not feasible for the system/project to provide special protection to SSNs. Explain:

8. Is the system operated by a contractor?
UNCLASSIFIED//FOR OFFICIAL USE ONLY

FBI PTA: Child Pornography Victim Assistance Tracking System (CPVA)

X No.

___Yes. Information systems operated by contractors for the FBI may be considered Privacy Act systems of records. The Federal Acquisition Regulation contains standard contract clauses that must be included in the event the system collects, maintains or disseminates PII and additional requirements may be imposed as a matter of Department of Justice policy. Consultations with the Office of the General Counsel may be required if a contractor is operating the system for the FBI.

9. Has the system undergone Certification & Accreditation (C&A) by the FBI Security Division (SecD)?

___X__ NO If no, indicate reason; if C&A is pending, provide anticipated completion date:

CPVA is not separately accredited because it is an Oracle-based application residing on Secret Enclave, the FBI’s secure internal network, and is not itself an IT system. Secret Enclave has Authority to Operate (ATO) through March 14, 2011 and is presently undergoing re-certification. Secret Enclave’s C & A information appears below.

Confidentiality: ___Low ___Moderate  ___X__ High ___Undefined

Integrity:  ___Low ___Moderate ___X__ High ___Undefined

Availability: ___Low ___Moderate ___X__ High ___Undefined

___ Not applicable – this system is only paper-based.

10. Is this system/project the subject of an OMB-300 budget submission?

___X__ NO

___YES If yes, please provide the date and name or title of the OMB submission:

___X__ NO

___YES If yes, please describe the data mining function:

12. Is this a national security system (as determined by the SecD)?
UNCLASSIFIED//FOR OFFICIAL USE ONLY

FBI PTA: Child Pornography Victim Assistance Tracking System (CPVA)

13. Status of System/Project:

___ Yes
___ No

This is a new system/project in development.

II. EXISTING SYSTEMS / PROJECTS

1. When was the system/project developed? December 2006.

2. Has the system/project undergone any significant changes since April 17, 2003?

___ No [If no, proceed to next question (II.3).]

___ Yes If yes, indicate which of the following changes were involved (mark all boxes that apply):

___ A conversion from paper-based records to an electronic system.

___ A change from information in a format that is anonymous or non-identifiable to a format that is identifiable to particular individuals.

___ A new use of an IT system/project, including application of a new technology, that changes how information in identifiable form is managed. (For example, a change that would create a more open environment and/or avenue for exposure of data that previously did not exist.)

___ A change that results in information in identifiable form being merged, centralized, or matched with other databases.

___ A new method of authenticating the use of and access to information in identifiable form by members of the public.

___ A systematic incorporation of databases of information in identifiable form purchased or obtained from commercial or public sources.

___ A new interagency use or shared agency function that results in new uses or exchanges of information in identifiable form.

___ A change that results in a new use or disclosure of information in identifiable form.

___ A change that results in new items of information in identifiable form being added into the system/project.
UNCLASSIFIED//FOR OFFICIAL USE ONLY

FBI PTA: Child Pornography Victim Assistance Tracking System (CPVA)

_____ Changes do not involve a change in the type of records maintained, the individuals on whom records are maintained, or the use or dissemination of information from the system/project.

_____ Other [Provide brief explanation]:

3. Does a PIA for this system/project already exist?

   ___ NO    ___ YES

If yes:
   a. Provide date/title of the PIA:

   b. Has the system/project undergone any significant changes since the PIA?

      ___ NO    ___ YES

(The FBI Privacy and Civil Liberties Officer's determinations, conditions, and/or final approval will be recorded on the following page.)
FINAL FBI APPROVAL / DETERMINATIONS / CONDITIONS: [This section will be completed by the FBI PCLU/PCLO following PTA submission. The PTA drafter should skip to the next page and continue.]

_____ PIA is required by the E-Government Act.

_____ PIA is to be completed as a matter of FBI/DOJ discretion.

Is PIA to be published on FBI.GOV (after any RMD FOIA redactions)?  Yes.  No (indicate reason):

_____ PIA is not required for the following reason(s):
   ____ System does not collect, maintain, or disseminate PII
   ____ System is grandfathered (in existence before 4/17/2003; no later changes posing significant privacy risks).
   ____ Information in the system relates to internal government operations.
   ____ System has been previously assessed under an evaluation similar to a PIA.
   ____ No significant privacy issues (or privacy issues are unchanged).
   ____ Other (describe): An EC has been submitted in lieu of a PIA.

Applicable SORN(s):

Notify FBI RMD/RIDS per MIOG 190.2.3?  No  Yes--See sample EC on PCLU intranet website here:
http://home/DO/OGC/LTB/PCLU/PrivacyCivil%20Liberties%20Library/form_for_mioG190-2-3_ec.wpd

SORN/SORN revision(s) required?  No  Yes (indicate revisions needed):

Prepare/revise/add Privacy Act (e)(3) statements for related forms?  No  Yes (indicate forms affected):

RECORDS. The program should consult with RMD to identify/resolve any Federal records/electronic records issues. The system may contain Federal records whether or not it contains Privacy Act requests and, in any event, a records schedule approved by the National Archives and Records Administration is necessary. RMD can provide advice on this as well as on compliance with requirements for Electronic Recordkeeping Certification and any necessary updates.

Other:

James J. Landon, Deputy General Counsel
FBI Privacy and Civil Liberties Officer

1. INFORMATION ABOUT THE SYSTEM / PROJECT

1. Provide a general description of the system or project that includes: (a) name of the system/project, including associated acronyms; (b) structure of the system/project, including interconnections with other projects or systems; (c) purpose of the system/project; (d) nature of the information in the system/project and how it will be used; (e) who will have access to the information in the system/project; (f) and the manner of transmission to all users. (This kind of information may be available in the System Security Plan, if available, or from a Concept of Operations document, and can be cut and pasted here.):

[Redacted]

will enable authorized users to
This will enhance the FBI's ability to

will be a "stand alone" system that will not be connected to the network or other systems. Information in the system will be

This information is currently prohibited from inclusion on the existing TS/SI network, due to concern with its sensitive content. The information in the system will be used along with other

personnel, including contractors, will be the only individuals with access to the system. The system itself will consist of a stand alone network, with terminals provided to each user.

2. Does the system/project collect, maintain, or disseminate any information about individuals (i.e., a human being or natural person, regardless of nationality)?

_____ NO [If no, STOP. The PTA is now complete and after division approval(s) should be submitted to FBI OGC/PCLI for final FBI approval. Unless you are otherwise advised, no PIA is required.]

___ X YES [If yes, please continue.]

1 The contractors who will be involved with this system have not been chosen yet. The choice of contractor will affect the choice of _______ referenced previously.
UNCLASSIFIED

3. Please indicate if any of the following characteristics apply to the information in the system about individuals: Bear in mind that log-on information may identify or be linkable to an individual. (Check all that apply.)

__X__ The information directly identifies specific individuals.

__X__ The information is intended to be used, in conjunction with other data elements, to indirectly identify specific individuals.

__X__ The information can be used to distinguish or trace an individual’s identity (i.e., it is linked or linkable to specific individuals).

If you marked any of the above, proceed to Question 4.

_____ None of the above. If none of the above, describe why the information does not identify specific individuals either directly or indirectly. [If you checked this item, STOP here after providing the requested description.]

4. Does the system/project pertain only to government employees, contractors, or consultants?

__X__ NO ______ YES

5. Is information about United States citizens or lawfully admitted permanent resident aliens retrieved from the system/project by name or other personal identifier?

_____ NO. [If no, skip to question 7.]

__X__ YES. [If yes, proceed to the next question.]

6. Does the system/project collect any information directly from the person who is the subject of the information?

__X__ NO [If no, proceed to question 7.]

_____ YES

   a. Does the system/project support criminal, CT, or FCI investigations or assessments?

________ NO

_____ YES [If yes, proceed to question 7.]
b. Are subjects of information from whom the information is directly collected provided a written Privacy Act (c)(3) statement (either on the collection form or via a separate notice)?

____ NO [The program will need to work with PCLU to develop/implement the necessary form(s).]

____ YES Identify any forms, paper or electronic, used to request such information from the information subject:

7. Are Social Security Numbers (SSNs) collected, maintained or disseminated from the system/project? Full SSNs should only be used as identifiers in limited instances.

____ NO __X__ YES If yes, check all that apply:

__X__ SSNs are necessary to establish/confirm the identity of subjects, victims, witnesses or sources in this law enforcement or intelligence activity.

____ SSNs are necessary to identify FBI personnel in this internal administrative system.

____ SSNs are important for other reasons. Describe:

____ The system/project provides special protection to SSNs (e.g., SSNs are encrypted, hidden from all users via a look-up table, or only available to certain users). Describe:

____ It is not feasible for the system/project to provide special protection to SSNs. Explain:

8. Is the system operated by a contractor?

__X__ No.

____ Yes. Information systems operated by contractors for the FBI may be considered Privacy Act systems of records. The Federal Acquisition Regulation contains standard contract clauses that must be included in the event the system collects, maintains or disseminates PHI and additional requirements may be imposed as a matter of Department of Justice policy. Consultations with the
UNCLASSIFIED

Office of the General Counsel may be required if a contractor is operating the system for the FBI.

9. Has the system undergone Certification & Accreditation (C&A) by the FBI Security Division (SecD)?

   _____ X_ NO  If no, indicate reason; if C&A is pending, provide anticipated completion date: Anticipated date of Jun 2011.

   _____ YES   If yes, please indicate the following, if known:

   Provide date of last C&A certification/re-certification:

   Confidentiality: _Low _Moderate _High _ Undefined

   Integrity:     _Low _Moderate _High _ Undefined

   Availability: _Low _Moderate _High _ Undefined

   _____ Not applicable – this system is only paper-based.

10. Is this system/project the subject of an OMB-300 budget submission?

   _____ X_ NO

   _____ YES   If yes, please provide the date and name or title of the OMB submission:

   _____ X_ NO

   _____ YES   If yes, please describe the data mining function:

12. Is this a national security system (as determined by the SecD)?

   _____ NO   _____ X_ YES

13. Status of System/Project:

   _____ X_ This is a new system/project in development. [If you checked this block, STOP. The PTA is now complete and after division approval(s) should be submitted to FBI OGC/PCLU for final FBI approval and determination if PIA and/or other actions are required.]
II. EXISTING SYSTEMS / PROJECTS

1. When was the system/project developed?

2. Has the system/project undergone any significant changes since April 17, 2003?
   ___ x NO [If no, proceed to next question (II.3).]

   YES If yes, indicate which of the following changes were involved (mark all changes that apply, and provide brief explanation for each marked change):

   ___ A conversion from paper-based records to an electronic system.

   ___ A change from information in a format that is anonymous or non-identifiable to a format that is identifiable to particular individuals.

   ___ A new use of an IT system/project, including application of a new technology, that changes how information in identifiable form is managed. (For example, a change that would create a more open environment and/or avenue for exposure of data that previously did not exist.)

   ___ A change that results in information in identifiable form being merged, centralized, or matched with other databases.

   ___ A new method of authenticating the use of and access to information in identifiable form by members of the public.

   ___ A systematic incorporation of databases of information in identifiable form purchased or obtained from commercial or public sources.

   ___ A new interagency use or shared agency function that results in new uses or exchanges of information in identifiable form.

   ___ A change that results in new use or disclosure of information in identifiable form.

   ___ A change that results in new items of information in identifiable form being added into the system/project.

   ___ Changes do not involve a change in the type of records maintained, the individuals on whom records are maintained, or the use or dissemination of information from the system/project.
UNCLASSIFIED

Other [Provide brief explanation]:

3. Does a PIA for this system/project already exist?

_x_ NO  ___ YES

If yes:

a. Provide date/title of the PIA:

b. Has the system/project undergone any significant changes since the PIA?

___ NO  ___ YES

[The PTA is now complete and after division approval(s) should be submitted to FBI OGC/PCLU for final FBI approval and determination if PIA and/or other actions are required.]
