In accordance With 41 U.S.C. 253 (c) (1)

1. Identification of the agency and the contracting activity, and specific identification of the document as a "Justification for Other Than Full and Open Competition."

3. A description of the supplies or services required to meet the agency's needs (including the estimated value).
4. An identification of the statutory authority permitting other than full and open competition.

5. A demonstration that the proposed contractor's unique qualifications or the nature of the acquisition requires use of the authority cited.

6. A description of efforts made to ensure that offers are solicited from as many potential sources as is practicable, including whether a notice was or will be publicized as required by Subpart 5.2 and, if not, which exception under 5.202 applies.

7. A determination by the contracting officer that the anticipated cost to the Government will be fair and reasonable.

The Contracting Officer will ensure that the anticipated cost to the government will be fair and reasonable. Techniques may include an analysis of proposed direct costs, audit or comparison of proposed indirect factors with audited factors in use elsewhere in the Government and comparison of proposed rates to published rates.

8. A description of the market research conducted and the results or a statement of the reason market research was not conducted.
FBI representatives from the TIU will continue to do market research and meet with vendor representatives to further research.

9. Any other facts supporting the use of other than full and open competition

10. A listing of the sources, if any, that expressed, in writing, an interest in the acquisition.

   None

11. A statement of the actions, if any, the agency may take to remove or overcome any barriers to competition before any subsequent acquisition for the supplies or services required.
