[CA] LA County Sheriff criticizes specialized ICE teams

KFIAM [2/27/2020 11:03 AM, Staff, CA] reports LA County Sheriff Alex Villanueva criticized the decision to send specialized ICE teams into LA for immigration roundups. **Villanueva says tactics used by the teams are heavy-handed.** He says violent crimes have been underreported in communities with a high number of illegal immigrants. He says people fear deportation. [Editorial note: consult source link for audio]

ICE DAILY BRIEFING

**ICE's use of Facial Recognition Services
Management and Administration**

Background:

ICE HSI routinely encounters digital images of potential victims or individuals suspected of crimes but cannot connect those images to identifiable information through existing investigative means and methods. HSI, therefore, submits those images to government agencies and commercial vendors (e.g., Clearview) to compare against their digital image galleries via facial recognition processes. The agencies and vendors query their databases and return lists of potential matches that HSI can use to produce investigative leads. These facial recognition services (FRS) use their own algorithms and business processes to determine the probability that an image submitted by ICE might match images in their galleries. ICE conducted a Privacy Impact Assessment (PIA) because the use of FRS entails the collection, maintenance, and dissemination of personally identifiable information (PII). Claims in this PIA have been reviewed and vetted through ICE IGP, HSI leadership, ICE OPLA, and the DHS Privacy Office. Once the DHS Chief Privacy Officer approves the PIA, the PIA will be posted publicly on the DHS Privacy website.

The following talking points are designed to support OPA and OCR to respond to media and Congressional inquiries on this topic:

(b)(6); (b)(7)(C) brought to my attention last week that Clearview provided them with a list of ICE users that included about 12 from ERO. We reached out to those officers who indicated that they became aware of Clearview as task force officers with HSI or USMS, through training they received from DOJ/USAO on human trafficking, or simply through word of mouth. Further their responses indicate that they have/had it through the 30-day trial period or as being embedded with HSI or USMS as TFOs. I can also confirm that ERO has not purchased any pilot/licenses from Clearview. (b)(5)

Chris,

Yes we prepared one that we sent to OPLA last night for review and we are waiting on their feedback and comments which we should have today. Attached is a draft if you want to review and let us know if you want more/less. If not will get you final copy once OPLA approves.

Thanks, (b)(5)

For (b)(6); (b)(7)(C) coming hearing, can we please get a paper on facial recognition (I believe this was done for a Congressional and can probably just be dusted off). Also (b)(6); (b)(7)(C) has information on the Philly school case. Can we get details on the Colorado cases referenced in the articles?

Thanks!

Further their responses indicate that they have/had it through the 30-day trial period or as being embedded with HSI or USMS as TFOs. I can also confirm that ERO has not purchased any pilot/licenses from Clearview. Therefore on the ERO topic specifically, we have been recommending to OPA a short and simple ICE statement along the lines of "ICE does not use Clearview for routine civil immigration enforcement."
