*The National Center for Missing and Exploited Children® (NCMEC) was established in 1984 as a private, nonprofit 501(c)(3) organization. NCMEC provides services nationwide to families and professionals relating to preventing the abduction and sexual exploitation of children. Pursuant to its mission and congressional authorization (see 42 U.S.C. § 5773), NCMEC operates the CyberTipline® and the Child Victim Identification Program to provide assistance to law enforcement and others in their efforts to identify and rescue victims of child pornography and child sexual exploitation. NCMEC also works with electronic service providers, electronic payment service providers and others in their efforts to reduce the distribution of child sexual exploitation images and videos on the Internet. NCMEC does not investigate and cannot verify the accuracy of information it receives. NCMEC makes available reports of apparent child sexual exploitation to law enforcement for its independent review and analysis.*

This concludes Section A. All of the information in this section was submitted electronically to the CyberTipline by the Reporting Person, NCMEC Call Center or Reporting ESP. The information appearing in Section A is information received in the original submission. The reporting of information in Section A, other than the "Incident Type" and "Incident Time," is voluntary and undertaken at the initiative of the Reporting Person or Reporting ESP.

## Section B: Automated Information Added by NCMEC Systems

Upon receipt of a CyberTipline report, NCMEC Systems may conduct automated processes on the information submitted in Section A. The information found in Section B of this CyberTipline Report has been automatically generated by NCMEC Systems. If the CyberTipline Report was submitted by a member of the public, Section B will be blank.

### Explanation of Automated Information (in alphabetical order)

**Geo-Lookup:** When a Reporting ESP voluntarily reports an IP address for the "User or Person Being Reported," NCMEC Systems will geographically resolve the IP address via a publicly-available online search. The results of this lookup are displayed.
