Exemption 1 of the FOIA protects from disclosure national security information concerning the national defense or foreign policy, provided that it has been properly classified in accordance with the substantive and procedural requirements of an executive order.

Exemption 3 of the FOIA incorporates the various nondisclosure provisions that are contained in other federal statutes. Title 10, United States Code (U.S.C.), Section 130 permits the withholding of certain technical data from public disclosure. The custodial agency has determined that, in accordance with DoD Directives implementing Section 130, the documents in question contain critical technical data with military or space application not intended for release to the public or foreign governments without an approval, authorization, or license under the Export Administration Act of 1979 (Title 50, U.S.C. App., Sections 2401-2420) or the Arms Export Control Act (Title 22, U.S.C., Section 2751 et seq.).

Exemption 4 protects trade secrets and commercial or financial information obtained from a person that is privileged or confidential.

Exemption 6 protects information contained in personnel and medical files and similar files, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Exemption 7(E) protects records whose release would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law. In this particular case, the use of Exemption 7(E) is invoked in the context of national security.

Although I am aware that your request is the subject of ongoing litigation and appeals are not ordinarily acted on in such situations, I am required by statute and regulation to inform you of your right to file an administrative appeal. Any such appeal should be addressed to the **United States Army Aviation and Missile Command Legal Office, Attention: AMSAM-LG, 5300 Martin Road, Redstone Arsenal, Alabama 35898-5000**, for forwarding to the Army General Counsel for final disposition on behalf of the Secretary of the Army. If you elect to file an appeal, it must be postmarked no later than 60 calendar days after the date of this interim release letter and include a copy of this letter. In your appeal letter, you must provide a statement of the reasons why you believe this initial decision to be in error. The appeal envelope and letter must be clearly marked "Freedom of Information Act Appeal."

Sincerely,

Fred W. Allen
