RE: Public Records Request regarding TrueAllele Casework software

Dear Ms. Fitzgerald:

I have received your public records request. Please be advised that our office does not have the source code information for TrueAlleles and I know of no one outside of Cybergenetics that does have it. The case in which TrueAlleles was ruled admissible is still an active case and has not yet been finally adjudicated. Please see La. Rev. Stat. Ann. Section 44:3(1).

Please contact me with any questions.

Sincerely yours,

Dana J. Cummings
Assistant District Attorney
